For the transition period from _____ to _____

Commission File No. 000-33043

OMNICELL, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

94-3166458
(IRS Employer
Identification No.)

**590 East Middlefield Road
Mountain View, CA 94043**
(Address of registrant's principal executive offices, including zip code)

(650) 251-6100
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company
(Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 26, 2018, there were 38,877,926 shares of the registrant's common stock, \$0.001 par value, outstanding.

OMNICELL, INC.

OMNICELL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1. Organization and Summary of Significant Accounting Policies

Business

Omniceil, Inc. was incorporated in California in 1992 under the name Omnicell Technologies, Inc. and reincorporated in Delaware in 2001 as Omnicell, Inc. The Company's major products are automated medication, supply control systems and medication adherence solutions which are sold in its principal market, which is the healthcare industry. The Company's market is primarily located in the United States and Europe. "Omnicell" or the "Company" collectively refer to Omnicell, Inc. and its subsidiaries.

Basis of presentation

The accompanying unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all adjustments, consisting of normal recurring adjustments and accruals, necessary to present fairly the financial position of the Company as of March 31, 2018 and December 31, 2017, the results of its operations, comprehensive income (loss) and cash flows for the three months ended March 31, 2018 and March 31, 2017. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and accompanying Notes included in the Company's annual report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 27, 2018, except as discussed in the "Revenue recognition" below. The Company's results of operations, comprehensive income (loss) and cash flows for the three months ended March 31, 2018 are not necessarily indicative of results that may be expected for the year ending December 31, 2018, or for any future period.

Certain prior year amounts have been adjusted to conform with the adoption of ASC 606, *Revenue from Contracts with Customers* ("ASC 606"), which became effective for the Company beginning on January 1, 2018. Refer to "Recently adopted authoritative guidance" for the effects of adoption of ASC 606 and the section below for the updated revenue recognition policy.

Principles of consolidation

The Condensed Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Revenue recognition

The Company earns revenues from sales of its medication and medical and surgical supply automation systems along with consumables and related services, which are sold in the healthcare industry, our principal market. The transaction price of each contract with a customer is allocated to identified performance obligations based on the relative fair value of each obligation. The Company's customer arrangements typically include one or more of the following performance obligations:

Products. Software-enabled equipment that manages and regulates the storage and dispensing of pharmaceuticals, consumable blister cards and packaging equipment and other medical supplies.

Software. Additional software applications that enable incremental functionality of its equipment.

Installation. Installation of equipment as integrated systems at customers' sites.

Post-installation technical support. Phone support, on-site service, parts and access to unspecified software updates and enhancements, if and when available.

Professional services. Other customer services, such as training and consulting.

Prior to recognizing revenue, the Company identifies the contract, performance obligations, and transaction price, and allocates the transaction price to the performance obligations. All identified contracts meet the following required criteria:

Parties to the contract have approved the contract (in writing, orally, or in accordance with other customary business practices) and are committed to perform their respective obligations. A majority of the Company's contracts are

[Table of Contents](#)

evidenced by a non-cancelable written agreement. Contracts for consumable products are generally evidenced by an order placed via phone or a manual purchase order.

Entity can identify each party's rights regarding the goods or services to be transferred. Contract terms are documented within the written agreements. Where a written contract does not exist, such as for consumable products, the rights of each party are understood as following our standard business process and terms.

The entity can identify the payment terms for the goods or services to be transferred. Payment terms are documented within the agreement and are generally net 30 days from shipment of tangible product or services performed. Where a written contract does not exist, the Company's standard payment terms are net 30 day terms.

The contract has commercial substance (that is the risk, timing, or amount of the entity's future cash flows is expected to change as a result of the contract.) The Company's agreements are an exchange of cash for a combination of products and services which result in changes in the amount of the Company's future cash flows.

It is probable the entity will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. The Company performs a credit check for all significant customers or transactions and where collectability is not probable, payment in full or a substantial down payment is typically required to help assure the full agreed upon contract price will be collected.

The Company often enters into change orders which modify the product to be received by the customer pursuant to certain contracts. Changes to any contract are accounted for as a modification of the existing contract to the extent the goods and services to be delivered as part of the contract are generally consistent with the nature and type of those to be provided under the terms of the original contract. Examples of such change orders include the addition or removal of units of equipment or changes to the configuration of the equipment where the overall nature of the contract remains intact. The Company's change orders generally result in the change being accounted for as modifications of existing contracts given the nature of the impacted orders.

Distinct goods or services are identified as performance obligations. A series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer are considered a single performance obligation. Where a good or service is determined not to be distinct, the Company combines the good or service with other promised goods or services until a bundle of goods or services that is distinct is identified. To identify its performance obligations, the Company considers all of the products or services promised in the contract regardless of whether they are explicitly stated or are implied by customary business practices. When performance obligations are included in separate contracts, the Company considers an entire customer arrangement to determine if separate contracts should be considered combined for the purposes of revenue recognition. Most of the Company's sales, other than renewals of support and maintenance, contain multiple performance obligations, with a combination of hardware systems, consumables and software products, support and maintenance, and professional services.

The transaction price of a contract is determined based on the fixed consideration, net of an estimate for variable consideration such as various discounts or rebates provided to customers. As a result of the Company's commercial selling practices, contract prices are generally fixed with minimal, if any, variable consideration.

The transaction price is allocated to separate performance obligations proportionally based on the standalone selling price of each performance obligation. Standalone selling price is best evidenced by the price the Company charges for the good or service when selling it separately in similar circumstances to similar customers. Other than for the renewal of annual support services contracts, the Company's products and services are not generally sold separately. The Company uses an expected cost plus a margin approach to identify the standalone selling price of goods where separate sales transactions do not exist. For software and services which do not have a specific identifiable product cost, the Company uses a discounted from the list price amount as a best estimated selling price.

The Company recognizes revenue when the performance obligation has been satisfied by transferring a promised good or service to a customer. The good or service is transferred when or as the customer obtains control of the good or service. Determining when control transfers requires management to make judgments that affect the timing of revenue recognized. Generally, for products requiring a complex implementation, control passes when the product is installed and ready for use. For all other products, control generally passes when product has been shipped and title has passed. For maintenance contracts and certain other services provided on a subscription basis, control passes to the customer over time, generally ratably over the service term as the Company provides a stand-ready service to service the customer's equipment. Time and material services transfer control to the customer at the time the services are provided. The portion of the transaction price allocated to the Company's unsatisfied performance obligation at March 31, 2018 and December 31, 2017 was \$104.5 million and \$89.4 million, respectively, of which \$95.7 million and \$78.8 million, respectively, was expected to be completed within one year.

[Table of Contents](#)

Remaining performance obligations primarily relate to maintenance contracts and are recognized ratably over the remaining term of the contract, generally not more than five years.

Revenues, contract assets and contract liabilities are recorded net of associated taxes.

The payment terms associated with the Company's contracts vary, however, payment terms for product revenue are generally based on milestones tied to contract signing, shipment of products and/or customer acceptance. Payment terms associated with the service portion of agreements are generally periodic and can be billed on a monthly, quarterly or annual basis. In certain circumstances multiple years are billed at one time. The portion of these contract liabilities not expected to be recognized as revenue within twelve months of the balance sheet date are considered long term.

In the normal course of business, the Company typically does not accept product returns unless the item is defective as manufactured or the configuration of the product is incorrect. The Company establishes provisions for estimated returns based on historical product returns. The allowance for sales returns is not material to the Condensed Consolidated Financial Statements for any periods presented.

A portion of the Company's sales are made through multi-year lease agreements. Under sales-type leases, the Company recognizes revenue for its hardware and software products net of lease execution costs, such as post-installation product maintenance and technical support, at the net present value of the lease payment stream once its installation obligations have been met. The Company optimizes cash flows by selling a majority of its non-U.S. government leases to third-party leasing finance companies on a non-recourse basis. The Company has no obligation to the leasing company once the lease has been sold. Some of the Company's sales-type leases, mostly those relating to U.S. government hospitals which comprise approximately 40% of the lease receivable balance, are retained in-house. Revenue from sales-type leases of \$9.8 million and \$3.2 million for the three months ended March 31, 2018 and 2017, respectively, is included in product revenue in the Condensed Consolidated Statements of Operations. Interest income in these leases is recognized in product revenue using the effective interest method.

A portion of the Company's sales are made to customers who are members of Group Purchasing Organizations ("GPOs"). GPOs are often owned fully or in part by the Company's customers and the Company pays fees to the GPO on completed contracts. The Company considers these fees consideration paid to customers and records them as reductions to revenue. Fees to GPOs were \$1.9 million and \$2.1 million for the quarters ended March 31, 2018 and 2017, respectively.

Contract assets and contract liabilities

A contract asset is a right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditional and is not just subject to the passage of time. A receivable will be recorded on the balance sheet when the Company has unconditional rights to consideration. A contract liability is an obligation to transfer goods or services for which the Company has received consideration, or for which an amount of consideration is due from the customer. Contract liabilities include customer deposits under non-cancelable contracts and current and non-current deferred revenue balances. The Company's contract balances are reported in a net contract asset or liability position on a contract-by-contract basis at the end of each reporting period.

The following table reflects the Company's contract assets and contract liabilities:

	March 31, 2018	December 31, 2017
	(In thousands)	
Short-term unbilled receivable - included in accounts receivable and unbilled	\$ 4,859	\$ 4,590
Long-term unbilled receivable - included in other long-term assets	10,877	9,475
Total contract assets	\$ 15,736	\$ 14,065
Short-term deferred revenue	\$ 95,709	\$ 78,774
Long-term deferred revenue	8,806	10,623
Total contract liabilities	\$ 104,515	\$ 89,397

[Table of Contents](#)

Significant changes in the contract assets and the contract liabilities balances during the period are the result of the issuance of invoices and recognition of deferred revenue in the normal course of business. Unbilled contract assets which were invoiced during the three months ended March 31, 2018 as a result of the right to invoice for the transaction consideration becoming unconditional were not material. The contract modifications entered into during the three months ended March 31, 2018, did not have a significant impact on the Company's contract assets or deferred revenues. During the three months ended March 31, 2018, the Company recognized revenue of \$46.6 million that was included in the corresponding deferred revenue balance as of December 31, 2017.

Contract costs

The Company has determined that the incentive portions of its sales commission plans require capitalization since these payments are directly related to sales achieved during a time period. These commissions are earned on the basis of the total purchase order value of new product bookings. Since there are not commensurate commissions earned on renewal of the service bookings, the Company concluded that the capitalized asset is related to services provided under both the initial contract and renewal periods. The Company applies a practical expedient to account for the incremental costs of obtaining a contract to a portfolio of contracts with similar characteristics as the Company expects the effect on the financial statements of applying the practical expedient would not differ materially from applying the accounting guidance to the individual contracts within the portfolio. A pool of contracts is defined as all contracts booked in a particular quarter. The amortization for the capitalized asset is an estimate of the pool's original contract term, generally one to five years, plus an estimate of future customer renewal periods resulting in a total amortization period of ten years. Costs to obtain a contract are allocated amongst performance obligations and recognized as sales and marketing expense consistent with the pattern of revenue recognition. Capitalized costs are periodically reviewed for impairment. A portion of the pool's capitalized asset is recorded as an expense after two quarters, which represents the estimated period during which the product revenue associated with the contract is recorded. The remaining contract cost is recorded as expense ratably over the ten year estimated initial and renewal service periods. During the three months ended March 31, 2018 and March 31, 2017, the Company recognized contract cost expense of \$5.6 million and \$4.1 million, respectively. The portion of commission expenses paid as of the balance sheet date to be recognized in future periods is recorded in long term prepaid commissions expense on the Condensed Consolidated Balance Sheets. There was no impairment loss in relation to the costs capitalized during the three months ended March 31, 2018.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the Company's Condensed Consolidated Financial Statements and accompanying Notes. Management bases its estimates on historical experience and various other assumptions believed to be reasonable. Although these estimates are based on management's best knowledge of current events and actions that may impact the Company in the future, actual results may be different from the estimates. The Company's critical accounting policies are those that affect its financial statements materially and involve difficult, subjective or complex judgments by management. Those policies are revenue recognition, accounts receivable and notes receivable from investment in sales-type leases, inventory valuation, capitalized software development costs, valuation and impairment of goodwill, purchased intangibles and long-lived assets, fair value of assets acquired and liabilities assumed in business combination, share-based compensation, and accounting for income taxes.

Segment reporting

The Company's Chief Operating Decision Maker ("CODM") is its Chief Executive Officer. The CODM allocates resources and evaluates the performance of the Company's segments using information about its revenues, gross profit, and income from operations. Such evaluation excludes general corporate-level costs that are not specific to either of the reportable segments and are managed separately at the corporate level. Corporate-level costs include expenses related to executive management, finance and accounting, human resources, legal, training and development, and certain other administrative expenses. See Note 14, Segment and Geographical Information, for additional information on segment reporting.

Recently adopted authoritative guidance

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASC 606, *Revenue from Contracts with Customers*, a new standard related to revenue recognition. Under the new standard, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration the entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (modified retrospective method). We adopted the standard using the full retrospective method effective beginning January 1, 2018.

[Table of Contents](#)

Under the ASC 606 guidance, fees paid to GPOs are now presented as a reduction of Product Revenue, whereas these fees were considered a part of Selling, General and Administrative costs under the previous guidance. The majority of the incremental costs incurred to obtain a contract, primarily commission expense, are recognized during the first year with the balance recognized ratably over a period of ten years. Additionally, revenue on term software licenses is recognized upon installation of the license rather than ratably over the life of the term license. Finally, the Company no longer defers the contingent revenue in transactions where the amount charged to the customer for a particular performance obligation is less than the allocation of standalone selling price. Adoption of the standard related to revenue recognition impacted our reported results for the three months period, as follows:

	March 31, 2017		
	As reported	Adjustment	As adjusted
	(In thousands)		
Revenue			
Automation and Analytics	\$ 124,171	\$ (2,001)	\$ 122,170
Medication Adherence	26,383	—	26,383

Recently issued authoritative guidance

In February 2018, the FASB issued ASU 2018-02, *Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*, which permits the reclassification of the income tax effects of the Tax Cuts and Jobs Act of 2017 on items within accumulated other comprehensive income to retained earnings. These amounts are commonly referred to as “stranded tax effects”. ASU 2018-02 will be effective for the Company beginning January 1, 2019. The Company is currently in the process of evaluating the impact of adoption on the consolidated financial statements.

There was no other recently issued and effective authoritative guidance that is expected to have a material impact on the Company's Condensed Consolidated Financial Statements through the reporting date.

Note 2. Business Acquisitions

2017 Acquisitions

On April 12, 2017, the Company completed the acquisition of all of the membership interest of Dixie Drawl, LLC d/b/a InPharmics ("InPharmics"). InPharmics is a technology and services company that provides advanced pharmacy informatics solutions to hospital pharmacies. The total consideration for the transaction was \$5.0 million, net of cash acquired of \$0.3 million, and includes \$0.5 million holdback for potential settlement of performance obligations. At March 31, 2018, this amount has been presented as a short-term liability. The Company accounted for the acquisition of InPharmics in accordance with the authoritative guidance on business combinations; therefore, the tangible and intangible assets acquired and liabilities

assumed were recorded at fair value on the acquisition date. The purchase price was preliminary allocated to intangible assets in the amount of \$1.9 million, which included developed technology and customer contracts, with the remainder allocated to goodwill. The results of the InPharmics' operations have been included in our consolidated results of operations, and presented as part of the Automation and Analytics segment.

Note 3. Net Income (Loss) Per Share

Basic net income (loss) per share is computed by dividing net income (loss) for the period by the weighted-average number of shares outstanding during the period, less shares repurchased. In periods of net loss, all potential common shares are anti-dilutive, so diluted net loss per share equals the basic net loss per share. In periods of net income, diluted net income per share is computed by dividing net income for the period by the basic weighted-average number of shares plus any dilutive potential common stock outstanding during the period. Potential common stock includes the effect of outstanding dilutive stock options, restricted stock awards and restricted stock units computed using the treasury stock method. Any anti-dilutive weighted-average dilutive shares related to stock award plans are excluded from the computation of the diluted net income per share.

The basic and diluted net income (loss) per share calculation for the three months ended March 31, 2018 and 2017 was as follows:

	Three months ended March 31,	
	2018	2017
	(In thousands, except per share data)	
Net income (loss)	\$ 2,720	\$ (10,335)
Weighted-average shares outstanding — basic	38,635	36,840
Effect of dilutive securities from stock award plans	1,056	—
Weighted-average shares outstanding — diluted	\$ 39,691	\$ 36,840
Net income (loss) per share - basic	\$ 0.07	\$ (0.28)
Net income (loss) per share - diluted	\$ 0.07	\$ (0.28)
Anti-dilutive weighted-average shares related to stock award plans	1,113	4,236

Note 4. Cash and Cash Equivalents and Fair Value of Financial Instruments

Cash and cash equivalents of \$43.8 million and \$32.4 million as of March 31, 2018 and December 31, 2017, respectively, consisted of demand deposits only.

Interest Rate Swap Contracts

The Company uses interest rate swap agreements to protect the Company against adverse fluctuations in interest rates by reducing its exposure to variability in cash flows relating to interest payments on a portion of its outstanding debt. The Company's interest rate swaps, which are designated as cash flow hedges, involve the receipt of variable amounts from counterparties in exchange for the Company making fixed-rate payments over the life of the agreements. The Company does not hold or issue any derivative financial instruments for speculative trading purposes.

During 2016, the Company entered into an interest rate swap agreement with a combined notional amount of \$100.0 million with one counter-party that became effective on June 30, 2016 and is maturing on April 30, 2019. The swap agreement requires the Company to pay a fixed rate of 0.8% and provides that the Company will receive a variable rate based on the one month LIBOR rate subject to a LIBOR floor of 0.0%. Amounts payable by or due to the Company will be net settled with the respective counter-party on the last business day of each month, commencing July 31, 2016.

The fair value of the interest rate swap agreements at March 31, 2018 and December 31, 2017 was \$1.5 million and \$1.4 million, respectively. There were no amounts reclassified into current earnings due to ineffectiveness during the periods presented.

Fair value hierarchy

The Company measures its financial instruments at fair value. The Company's cash equivalents are classified within Level 1 of the fair value hierarchy as they are valued primarily using quoted market prices utilizing market observable inputs.

[Table of Contents](#)

The Company's interest rate swap contracts and foreign currency contracts are classified within Level 2 as the valuation inputs are based on quoted prices and market observable data of similar instruments.

The following table represents the fair value hierarchy of the Company's financial assets and financial liabilities measured at fair value as of March 31, 2018:

	Level 1	Level 2	Level 3	Total
(In thousands)				
Interest rate swap contracts	\$ —	\$ 1,464	\$ —	\$ 1,464
Total financial assets	\$ —	\$ 1,464	\$ —	\$ 1,464

There were no transfers between fair value measurement levels during the three months ended March 31, 2018 and March 31, 2017.

The following table represents the fair value hierarchy of the Company's financial assets and financial liabilities measured at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
(In thousands)				
Interest rate swap contracts	\$ —	\$ 1,378	\$ —	\$ 1,378
Total financial assets	\$ —	\$ 1,378	\$ —	\$ 1,378

Net investment in sales-type leases. The carrying amount of the Company's sales-type lease receivables is a reasonable estimate of fair value, as the unearned interest income is immaterial.

Note 5. Balance Sheet Components

Balance sheet details as of March 31, 2018 and December 31, 2017 are presented in the tables below:

	March 31, 2018	December 31, 2017

Amounts reclassified from other comprehensive income (loss), net of tax		(199)	(199)	—	6	6
Net current-period other comprehensive income (loss), net of tax	2,472	202	2,674	923	182	1,105
Ending balance	<u>\$ (4,482)</u>	<u>\$ 1,043</u>	<u>\$ (3,439)</u>	<u>\$ (9,841)</u>	<u>\$ 1,427</u>	<u>\$ (8,414)</u>

Note 6. Net Investment in Sales-Type Leases

On a recurring basis, we enter into sales-type lease transactions with the majority varying in length from one to five years. The receivables as a result of these types of transactions are collateralized by the underlying equipment leased and consist of the following components at March 31, 2018 and December 31, 2017:

	March 31, 2018	December 31, 2017
	(In thousands)	
Net minimum lease payments to be received	\$ 26,789	\$ 25,899
Less: Unearned interest income portion	(2,056)	(1,695)
Net investment in sales-type leases	24,733	24,204
Less: Short-term portion ⁽¹⁾	(8,289)	(8,769)
Long-term net investment in sales-type leases	<u>\$ 16,444</u>	<u>\$ 15,435</u>

⁽¹⁾ The short-term portion of the net investments in sales-type leases is included in other current assets in the Condensed Consolidated Balance Sheets.

The Company evaluates its sales-type leases individually and collectively for impairment. The allowance for credit losses were \$0.2 million as of March 31, 2018 and December 31, 2017.

[Table of Contents](#)

At March 31, 2018, the future minimum lease payments under sales-type leases were as follows:

	March 31, 2018
	(In thousands)
Remaining nine months of 2018	\$ 5,293
2019	7,872
2020	1,938
2021	5,203
2022	3,386
Thereafter	3,097
Total	\$ 26,789

Note 7. Goodwill and Intangible Assets

Goodwill

The following table represents changes in the carrying amount of goodwill:

	Automation and Analytics	Medication Adherence	Total
	(In thousands)		
Net balance as of December 31, 2017	\$ 220,851	\$ 116,900	\$ 337,751

In-process technology	3,900	—	—	3,900	—
Total intangibles assets, net	<u>\$ 248,030</u>	<u>\$ (80,030)</u>	<u>\$ 107</u>	<u>\$ 168,107</u>	

Amortization expense of intangible assets was \$6.0 million and \$6.5 million for the three months ended March 31, 2018 and 2017, respectively.

The estimated future amortization expenses for amortizable intangible assets are as follows:

	March 31, 2018
	(In thousands)
Remaining nine months of 2018	\$ 17,463
2019	18,036
2020	16,832
2021	15,378
2022	14,009
Thereafter (excluding in-process technology)	76,840
Total	<u>\$ 158,558</u>

Note 8. Debt

On January 5, 2016, the Company entered into a \$400 million senior secured credit facility pursuant to a credit agreement, by and among the Company, the lenders from time to time party thereto, Wells Fargo Securities, LLC, as Sole Lead Arranger and Wells Fargo Bank, National Association, as administrative agent (the "Credit Agreement"). The Credit Agreement provides for (a) a five-year revolving credit facility of \$200 million, which was subsequently increased pursuant to the amendment discussed below (the "Revolving Credit Facility") and (b) a five-year \$200 million term loan facility (the "Term Loan Facility" and together with the Revolving Credit Facility, the "Facilities"). In addition, the Credit Agreement includes a letter of credit sub-limit of up to \$10 million and a swing line loan sub-limit of up to \$10 million. The Credit Agreement expires on January 5, 2021, upon which date all remaining outstanding borrowings are due and payable.

Loans under the Facilities bear interest, at the Company's option, at a rate equal to either (a) the LIBOR Rate, plus an applicable margin ranging from 1.50% to 2.25% per annum based on the Company's consolidated total net leverage ratio (as defined in the Credit Agreement), or (b) an alternate base rate equal to the highest of (i) the prime rate, (ii) the federal funds rate plus 0.50%, and (iii) LIBOR for an interest period of one month, plus an applicable margin ranging from 0.50% to 1.25% per annum based on the Company's consolidated total net leverage ratio (as defined in the 2016 Credit Agreement). Undrawn commitments under the Revolving Credit Facility will be subject to a commitment fee ranging from 0.20% to 0.35% per annum based on the Company's consolidated total net leverage ratio on the average daily unused portion of the Revolving Credit Facility. A letter of credit participation fee ranging from 1.50% to 2.25% per annum based on the Company's consolidated total net leverage ratio will accrue on the average daily amount of letter of credit exposure.

The Company is permitted to make voluntary prepayments at any time without payment of a premium or penalty, except for any amounts relating to the LIBOR breakage indemnity described in the Credit Agreement. The Company is required to make mandatory prepayments under the Term Loan Facility with (a) net cash proceeds from any issuances of debt (other than certain permitted debt) and (b) net cash proceeds from certain asset dispositions (other than certain asset dispositions) and insurance and condemnation events (subject to reinvestment rights and certain other exceptions). Loans under the Term Loan Facility will amortize in quarterly installments, equal to 5% per annum of the original principal amount thereof

[Table of Contents](#)

during the first two years, which shall increase to 10% per annum during the third and fourth years, and 15% per annum during the fifth year, with the remaining balance payable on January 5, 2021. The Company is required to make mandatory prepayments under the Revolving Credit Facility if at any time the aggregate outstanding principal amount of loans together with the total amount of outstanding letters of credit exceeds the aggregate commitments, with such mandatory prepayment to be equal to the amount of such excess.

The Credit Agreement contains customary representations and warranties and customary affirmative and negative covenants applicable to the Company and its subsidiaries, including, among other things, restrictions on indebtedness, liens, investments, mergers, dispositions, dividends and other distributions. The Credit Agreement contains financial covenants that require the Company and its subsidiaries to not exceed a maximum consolidated total leverage ratio and maintain a minimum fixed charge coverage ratio. The Company's obligations under the Credit Agreement and any swap obligations and banking services obligations owing to a lender (or an affiliate of a lender) are guaranteed by certain of its domestic subsidiaries and secured by substantially all of its and the subsidiary guarantors' assets. In connection with entering into the Credit Agreement, and as a condition precedent to borrowing loans thereunder, the Company and certain of the Company's other direct and indirect subsidiaries have entered into certain ancillary agreements, including, but not limited to, a collateral agreement and subsidiary guaranty agreement.

On April 11, 2017, the parties entered into the First Amendment to Credit Agreement and Collateral Agreement (the "Amended Credit Agreement"). Under this amendment, (i) the maximum capital expenditures limit in any fiscal year for property, plant and equipment and software development increased from \$35.0 million to \$45.0 million, and (ii) the maximum limit for non-permitted investments increased from \$10.0 million to \$20.0 million.

On December 26, 2017, the parties entered into another amendment (the "Amendment") to the Amended Credit Agreement. Pursuant to the Amendment, the Revolving Credit Facility provided for under the Amended Credit Agreement, was increased from \$200.0 million to \$315.0 million and certain other modifications to the Amended Credit Agreement were made, including amendments to certain negative covenants.

In connection with these Facilities, the Company incurred \$10.1 million of debt issuance costs. The debt issuance costs were capitalized and presented as a direct deduction from the carrying amount of that debt liability in accordance with the accounting guidance. The debt issuance costs are being amortized to interest expense using the straight line method from issuance date through 2021. Interest expense (exclusive of fees and issuance cost amortization) was approximately \$1.9 million and \$1.5 million for the three months ended March 31, 2018 and 2017, respectively. Amortization expense related to fees and issuance cost was approximately \$0.6 million and \$0.4 million for the three months ended March 31, 2018 and 2017, respectively. The Company was in compliance with all covenants as of March 31, 2018 and December 31, 2017.

As of March 31, 2018 the Company has repaid \$139.5 million borrowed under these Facilities, which includes \$2.5 million repaid during the three months ended March 31, 2018. The components of the Company's debt obligations as of March 31, 2018 and December 31, 2017 are as follows:

	December 31, 2017	Borrowings	Repayment / Amortization	March 31, 2018
	(In thousands)			
Term loan facility	\$ 182,500	\$ —	\$ (2,500)	\$ 180,000
Revolving credit facility	34,500	—	—	34,500
Total debt under the facilities	217,000	—	(2,500)	214,500
Less: Deferred issuance cost	(6,875)	—	573	(6,302)
Total Debt, net of deferred issuance cost	\$ 210,125	\$ —	\$ (1,927)	\$ 208,198
Long term debt, current portion, net of deferred issuance cost	15,208			17,708
Long term debt, net of deferred issuance cost	\$ 194,917			\$ 190,490

As of March 31, 2018, the carrying amount of debt of \$214.5 million approximates the comparable fair value of \$217.6 million. The Company's debt facilities are classified as a Level 3 in the fair value hierarchy. The calculation of the fair value is based on a discounted cash flow model using observable market inputs and taking into consideration variables such as interest rate changes, comparable instruments, and long-term credit ratings.

Note 9. Deferred revenue

Short-term deferred revenue of \$95.7 million and \$78.8 million includes deferred revenue from product sales and service contracts, net of deferred cost of sales of \$15.7 million and \$16.9 million as of March 31, 2018 and December 31, 2017, respectively. The short-term deferred revenues from product sales relate to delivered and invoiced products, pending installation and acceptance, expected to occur within the next twelve months.

Long-term deferred revenue includes deferred revenue from service contracts of \$8.8 million and \$10.6 million, as of March 31, 2018 and December 31, 2017, respectively.

Note 10. Commitments and Contingencies

Lease commitments

The Company leases office space and office equipment under operating leases. Commitments under operating leases primarily relate to leasehold property and office equipment. At March 31, 2018, the minimum future payments on non-cancelable operating leases were as follows:

	(In thousands)
Remaining nine months of 2018	\$ 8,896
2019	11,763
2020	10,803
2021	10,515
2022	8,818
Thereafter	26,383
Total minimum future lease payments	<u>\$ 77,178</u>

Purchase obligations

In the ordinary course of business, the Company issues purchase orders based on its current manufacturing needs. At March 31, 2018, the Company had non-cancelable purchase commitments of \$55.4 million, which are expected to be paid within the next twelve months.

Legal Proceedings

The Company is currently involved in various legal proceedings. As required under ASC 450, Contingencies, the Company accrues for contingencies when it believes that a loss is probable and that it can reasonably estimate the amount of any such loss. The Company has not recorded any accrual for contingent liabilities associated with the legal proceedings described below based on its belief that any potential loss, while reasonably possible, is not probable. Further, any possible range of loss in these matters cannot be reasonably estimated at this time. The Company believes that it has valid defenses with respect to legal proceedings pending against it. However, litigation is inherently unpredictable, and it is possible that cash flows or results of operations could be materially affected in any particular period by the unfavorable resolution of this contingency or because of the diversion of management's attention and the creation of significant expenses.

On January 10, 2018, a lawsuit was filed against a number of individuals, governmental agencies and corporate entities, including the Company and one of its subsidiaries, Aesynt Incorporated ("Aesynt"), in the Circuit Court for the City of Richmond, Virginia, captioned Ruth Ann Warner, as Guardian of Jonathan James Brewster Warner v. Centra Health, Inc., et al. (Case No. CL18-152-1). The complaint seeks monetary recovery of compensatory and punitive damages in addition to certain declaratory relief based upon, as against the individuals, governmental agencies and corporate entities other than the Company and Aesynt, allegations of the use of excessive force, unlawful detention, false imprisonment, battery, simple and gross negligence and negligent hiring, detention and training and, as against the Company and Aesynt, claims of product liability, negligence and breach of implied warranties. The Company and Aesynt have not yet been served with the complaint. The Company intends to defend the lawsuit vigorously.

Note 11. Income Taxes

On December 22, 2017, the Tax Cuts and Jobs Act (the "Act") was signed into law, most provisions of which became effective starting in 2018, including the reduction of the statutory corporate income tax rate from 35% to 21%. As of March 31, 2018, the Company has not completed the accounting for the tax effects of enactment of the Act; however, in the fourth quarter of 2017, the Company made a reasonable estimate of the effects on the existing deferred tax balances and the one-time

[Table of Contents](#)

transition tax. No adjustments to the provisional amounts recorded in the fourth quarter of 2017 have been made during the three months ended March 31, 2018. In the current quarter, the Company assessed the effect of certain international provisions of the Act that became effective January 1, 2018, and determined that these provisions had an immaterial impact, therefore, the Company did not record any impact as a result of the assessment. The Company will continue to analyze the provision for income taxes under the Act as future guidance is issued. Any revisions will be treated in accordance with the measurement period guidance outlined in Staff Accounting Bulletin No. 118.

The Company generally provides for income taxes in interim periods based on the estimated annual effective tax rate for the year, adjusting for discrete items in the quarter in which they arise. The annual effective tax rate before discrete items was 18% and 39% for the three months ended March 31, 2018 and March 31, 2017, respectively.

The 2018 annual effective tax rate differed from the statutory rate of 21% primarily due to the unfavorable impact of state income taxes, non-deductible expenses and non-deductible equity charges, which were partially offset by the favorable impact of the Research & Development credits and foreign rate differential. The 2017 annual effective tax rate differed from the statutory rate of 35% primarily due to the unfavorable impact of state income taxes, foreign rate differential, and non-deductible equity charges, which were partially offset by the domestic production activities deduction and the Research & Development credits.

As of March 31, 2018 and December 31, 2017, the Company had gross unrecognized tax benefits of \$11.6 million and \$10.7 million, respectively. It is the Company's policy to classify accrued interest and penalties as part of the unrecognized tax benefits, but to record interest and penalties in operating expense. As of March 31, 2018 and December 31, 2017, the amount of accrued interest and penalties was \$1.5 million and \$1.4 million, respectively.

The Company files income tax returns in the United States and various states and foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities, including major jurisdictions such as the United States, Germany, Italy, Netherlands and the United Kingdom. With few exceptions, as of March 31, 2018, the Company is no longer subject to U.S., state, and foreign examination for years before 2014, 2013, and 2014.

Although the Company believes it has adequately provided for uncertain tax positions, the provisions on these positions may change as revised estimates are made or the underlying matters are settled or otherwise resolved. It is not possible at this time to reasonably estimate changes in the unrecognized tax benefits within the next twelve months.

Note 12. Employee Benefits and Share-Based Compensation

Stock based plans

For a detailed explanation of the Company's stock plans and subsequent changes, please refer to Note 11, Employee Benefits and Share-Based Compensation, of the Company's Annual Report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 27, 2018.

Share-based compensation expense

The following table sets forth the total share-based compensation expense recognized in the Company's Condensed Consolidated Statements of Operations:

	Three months ended	
	March 31, 2018	March 31, 2017
	(In thousands)	
Cost of product and service revenues	\$ 1,019	\$ 982
Research and development	1,234	897
Selling, general and administrative	4,275	3,632
Total share-based compensation expense	<u>\$ 6,528</u>	<u>\$ 5,511</u>

Stock Options and ESPP Shares

The following assumptions were used to value share options and Employee Stock Purchase Plan ("ESPP") shares granted pursuant to the Company's equity incentive plans for the three months ended March 31, 2018 and 2017:

	Three months ended	
	March 31, 2018	March 31, 2017
Stock Option Plans		
Expected life, years	4.79	4.67
Expected volatility, %	32.2%	31.1%
Risk free interest rate, %	2.57%	1.89%
Estimated forfeiture rate %	6.9%	7.7%
Dividend yield, %	—%	—%

	Three months ended	
	March 31, 2018	March 31, 2017
Employee Stock Purchase Plan		
Expected life, years	0.5-2.0	0.5-2.0
Expected volatility, %	27.7-33.8%	25.8-32.8%
Risk free interest rate, %	0.70-2.25%	0.52-1.31%
Dividend yield, %	—%	—%

Stock Options activity

The following table summarizes the share option activity under the Company's equity incentive plans during the three months ended March 31, 2018:

	Number of Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Years	Aggregate Intrinsic Value
(In thousands, except per share data)				
Stock Options				
Outstanding at December 31, 2017	3,323	\$ 32.72	7.6	\$ 53,953
Granted	482	44.38		
Exercised	(87)	22.50		
Expired	(1)	24.09		
Forfeited	(43)	37.14		
Outstanding at March 31, 2018	3,674	\$ 34.45	7.3	\$ 37,607
Exercisable at March 31, 2018	1,474	\$ 25.36	5.3	\$ 26,596
Vested and expected to vest at March 31, 2018 and thereafter	3,456	\$ 33.94	7.2	\$ 36,818

The weighted-average fair value per share of options granted during the three months ended March 31, 2018 and 2017 was \$14.22 and \$10.86, respectively. The intrinsic value of options exercised during the three months ended March 31, 2018 and 2017 was \$2.0 million and \$2.9 million, respectively.

As of March 31, 2018, total unrecognized compensation cost related to unvested stock options was \$23.1 million, which is expected to be recognized over a weighted-average vesting period of 3.0 years.

Employee Stock Purchase Plan activity

For the three months ending March 31, 2018 and 2017, employees purchased approximately 289,000 and 259,000 shares of common stock under the ESPP at weighted average prices of \$26.30 and \$25.51, respectively. As of March 31, 2018, the unrecognized compensation cost related to the shares to be purchased under the ESPP was approximately \$6.5 million and is expected to be recognized over a weighted-average period of 1.4 years.

Restricted Stock Units and Restricted Stock Awards

Summaries of restricted stock activity under the Company's 2009 Equity Incentive Plan, as amended (the "2009 Plan") are presented below:

	Number of Shares	Weighted-Average Grant Date Fair Value	Weighted-Average Remaining Years	Aggregate Intrinsic Value
(In thousands, except per share data)				
Restricted Stock Units ("RSUs")				
Outstanding at December 31, 2017	501	\$ 38.90	1.5	\$ 24,293
Granted	71	44.32		
Vested	(50)	33.70		
Forfeited	(14)	39.05		
Outstanding and unvested at March 31, 2018	<u>508</u>	\$ 40.16	1.5	\$ 22,041

The weighted-average grant date fair value per share of RSUs granted during the three months ended March 31, 2018 and March 31, 2017 was \$44.32 and \$36.57, respectively.

As of March 31, 2018, total unrecognized compensation expense related to RSUs was \$17.2 million, which is expected to be recognized over the remaining weighted-average vesting period of 2.8 years.

	Number of Shares	Weighted-Average Grant Date Fair Value
(In thousands, except per share data)		
Restricted Stock Awards ("RSAs")		
Outstanding at December 31, 2017	23	\$ 41.07
Granted	—	—
Vested	—	—
Forfeited	—	—
Outstanding and unvested at March 31, 2018	<u>23</u>	\$ 41.08

As of March 31, 2018, total unrecognized compensation cost related to RSAs was \$0.1 million, which is expected to be recognized over the remaining weighted-average vesting period of 0.1 years.

Performance-based Restricted Stock Units

A summary of the performance-based restricted stock activity under the 2009 Plan during the three months ended March 31, 2018 is presented below:

	Number of Shares	Weighted-Average Grant Date Fair Value Per Unit
(In thousands, except per share data)		
Performance-based Restricted Stock Units ("PSUs")		
Outstanding at December 31, 2017	225	\$ 31.18
Granted	110	38.03
Vested	(32)	32.37
Forfeited	(1)	43.20
Outstanding and unvested at March 31, 2018	<u>302</u>	\$ 33.51

The weighted-average grant date fair value per share of PSUs granted during the three months ended March 31, 2018 and 2017 was \$38.03 and \$32.37, respectively. As of March 31, 2018, total unrecognized compensation cost related to PSUs was \$5.4 million, which is expected to be recognized over the remaining weighted-average period of 1.5 years.

Summary of Shares Reserved for Future Issuance under Equity Incentive Plans

The Company had the following ordinary shares reserved for future issuance under its equity incentive plans as of March 31, 2018:

	Number of Shares
	(In thousands)
Share options outstanding	3,674
Non-vested restricted share awards	833
Shares authorized for future issuance	730
ESPP shares available for future issuance	2,077
Total shares reserved for future issuance	<u>7,314</u>

Stock Repurchase Program

On August 2, 2016, the Company's Board of Directors (the "Board") authorized a stock repurchase program providing for the repurchase of up to \$50.0 million of the Company's common stock (the "2016 Repurchase Program"). The 2016 Repurchase Program is in addition to the stock repurchase program approved by the Board on November 4, 2014 (the "2014 Repurchase Program"). As of March 31, 2018, the maximum dollar value of shares that may yet be purchased under the two repurchase programs was \$54.9 million. The stock repurchase programs do not obligate the Company to repurchase any specific number of shares, and the Company may terminate or suspend the repurchase program at any time.

During the three months ended March 31, 2018 and 2017, the Company did not repurchase any of its outstanding common stock.

Note 13. Equity Offerings

On November 3, 2017, the Company entered into a Distribution Agreement (the "Distribution Agreement") with J.P. Morgan Securities LLC, Wells Fargo Securities, LLC and HSBC Securities (USA) Inc., as its sales agents, pursuant to which the Company may offer and sell from time to time through the sales agents up to \$125 million maximum aggregate offering price of the Company's common stock. Sales of the common stock pursuant to the Distribution Agreement may be made in negotiated transactions or transactions that are deemed to be "at the market" offerings as defined in Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"), including sales made directly on the Nasdaq Stock Market, or sales made to or through a market maker other than on an exchange.

For the three months ended March 31, 2018, the Company did not sell any of its common stock under the Distribution Agreement.

Note 14. Segment and Geographical Information

The Company's Chief Operating Decision Maker ("CODM") is its Chief Executive Officer. The CODM allocates resources and evaluates the performance of the Company's segments using information about its revenues, gross profit, and income from operations. Such evaluation excludes general corporate-level costs that are not specific to either of the reportable segments and are managed separately at the corporate level. Corporate-level costs include expenses related to executive management, finance and accounting, human resources, legal, training and development, and certain administrative expenses. The two operating segments, which are the same as the Company's two reportable segments, are as follows:

Automation and Analytics

The Automation and Analytics segment is organized around the design, manufacturing, selling and servicing of medication and supply dispensing systems, pharmacy inventory management systems, and related software. The Automation and Analytics products are designed to enable the Company's customers to enhance and improve the effectiveness of the medication-use process, the efficiency of the medical-surgical supply chain, overall patient care and clinical and financial outcomes of medical facilities. Through modular configuration and upgrades, the Company's systems can be tailored to specific customer needs. The financial results of InPharmics acquired in the second quarter of 2017 are included in the Automation and Analytics segment.

Medication Adherence

The Medication Adherence segment includes solutions to assist patients to remain adherent to their medication regimens. These solutions are comprised of a variety of tools and aids that may be directly used by a pharmacist or a healthcare provider in their direct care for a patient, or the patient themselves, and include software based systems and medication adherence packaging. Software solutions primarily operate on the Patient Management Access Portal (PMAP), a subscription based software system which provides an environment for patient engagement by clinicians. Services running on PMAP

[Table of Contents](#)

include Time My Meds® medication synchronization, immunization management, and a number of tools used by clinicians to manage patient engagement workflows. Medication Adherence packaging is designed either for patient use in care environments where there is a caregiver present or for environments where the patient cares for him or herself and includes the manufacturing and selling of consumable medication blister cards, packaging equipment and ancillary products and services.

The following tables summarize the financial performance of the Company's reportable segments, including a reconciliation of income from segment operations to income from total operations:

	Three months ended March 31,					
	2018			2017		
	Automation and Analytics	Medication Adherence	Total	Automation and Analytics	Medication Adherence	Total
	(In thousands)					
Revenues	\$ 151,406	\$ 31,213	\$ 182,619	\$ 122,170	\$ 26,383	\$ 148,553
Cost of revenues	78,242	21,922	100,164	68,761	17,601	86,362
Gross profit	73,164	9,291	82,455	53,409	8,782	62,191
Operating expenses	48,390	10,199	58,589	48,062	11,196	59,258
Income from operations	\$ 24,774	\$ (908)	\$ 23,866	\$ 5,347	\$ (2,414)	\$ 2,933
Corporate costs			23,233			19,485
Income from operations			\$ 633			\$ (16,552)

Significant customers

There were no customers that accounted for more than 10% of our total revenues for the three months ended March 31, 2018 and 2017. Also, there were no customers that accounted for more than 10% of our accounts receivable as of March 31, 2018 and December 31, 2017.

Note 15. Restructuring Expenses

On March 2, 2018, the Company initiated the realignment of its Automation and Analytics commercial group in North American and France. The total estimated cost for the plan was \$1.5 million and consists primarily of employee severance cost. As of March 31, 2018, the unpaid balance is \$1.4 million and is presented as a component of accrued compensation liabilities in the Condensed Consolidated Balance Sheet.

On February 15, 2017, the Company announced its plan to reduce its workforce by approximately 100 full-time employees and close the Company's Nashville, Tennessee and Slovenia facilities. The plan was completed in fiscal year 2017. During the three months ended March 31, 2017, the Company accrued \$3.8 million of expenses, primarily for employee severance and related expenses, and paid out \$2.1 million. The remaining unpaid balance of \$1.7 million accrued expenses is presented as a component of accrued compensation in the Condensed Consolidated Balance Sheet. There were no facility-related costs incurred during the three months ended March 31, 2017.

Note 16. Subsequent Event

On April 30, 2018, the Company entered into a settlement agreement related to certain contingencies associated with the Ateb 2016 acquisition. The settlement, which will be recognized in the second quarter of 2018, is for approximately \$2.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS AND FACTORS THAT MAY AFFECT FUTURE RESULTS

This quarterly report on Form 10-Q contains forward-looking statements. The forward-looking statements are contained principally in the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements include, but are not limited to, statements about:

- *our expectations regarding our future product bookings;*
- *the extent and timing of future revenues, including the amounts of our current backlog;*
- *the size or growth of our market or market share;*
- *our ability to acquire companies, businesses, products or technologies on commercially reasonable terms and integrate such acquisitions effectively;*
- *our continued investment in, and ability to deliver on, our key business strategies of developing differentiated solutions, increasing penetration of new markets, and expanding our solutions through acquisitions and partnerships;*
- *our ability to deliver on our goals of advancing our platform with new product introductions annually, producing solutions that support fully automated central pharmacy operations and helping to lead the digital healthcare transformation with solutions that meet customer needs;*
- *our belief that continued investment in our key business strategies will continue to generate our revenue and earnings growth, as well as our expectations about the trends and other factors we believe will be critical to the success of our strategies;*
- *the bookings, revenue and margin opportunity presented by new products, emerging markets and international markets;*
- *our ability to align our cost structure and headcount with our current business expectations;*
- *the operating margins or earnings per share goals we may set;*
- *our ability to protect our intellectual property and operate our business without infringing upon the intellectual property rights of others;*
- *our expected future uses of cash and the sufficiency of our sources of funding;*
- *the expected impacts of new accounting standards or changes to existing accounting standards;*
- *the impacts of the U.S. Tax Cuts and Jobs Act of 2017; and*
- *our ability to generate cash from operations and our estimates regarding the sufficiency of our cash resources.*

In some cases, you can identify forward-looking statements by terms such as "anticipates," "believes," "could," "estimates," "expects," "intends," "seeks," "may," "plans," "potential," "predicts," "projects," "should," "will," "would" and variations of these terms and similar expressions. Forward-looking statements are based on our current expectations and

[Table of Contents](#)

assumptions and are subject to known and unknown risks and uncertainties, which may cause our actual results, performance or achievements to be materially different from those expressed or implied in the forward-looking statements.

Such risks and uncertainties include those described throughout this quarterly report, particularly in Part II - Item 1A. "Risk Factors" below. Given these risks and uncertainties, you should not place undue reliance on these forward-looking statements. You should carefully read this quarterly report and the documents that we reference in this quarterly report and have filed as exhibits, as well as other documents we file from time to time with the Securities and Exchange Commission, with the understanding that our actual future results may be materially different from what we expect. All references in this report to "Omniceil," "our," "us," "we," or the "Company" collectively refer to Omnicell, Inc., a Delaware corporation, and its subsidiaries. The term "Omnicell, Inc.," refers only to Omnicell, Inc., excluding its subsidiaries. The forward-looking statements in this quarterly report represent our estimates and assumptions only as of the date of this quarterly report. Except as required by law, we assume no obligation to update any forward-looking statements publicly, or to update the reasons actual results could differ materially from those expressed or implied in any forward-looking statements, even if new information becomes available in the future.

We own various trademarks and service marks used in our business, including the following registered and unregistered marks which appear in this report: Omnicell®, the Omnicell logo, SureMed®, Ateb®, Time My Meds®, Aesynt®, AcuDose-Rx®, Connect-Rx®, MACH4®, Anesthesia Workstation™ and Performance Center™. This report also includes the trademarks and service marks of other companies. All other trademarks and service marks used in this report are the marks of their respective holders.

OVERVIEW

Our Business

We are a leading provider of comprehensive automation and business analytics software solutions for patient-centric medication and supply management across the entire healthcare continuum, from the acute care hospital setting to post-acute skilled nursing and long-term care facilities to the home.

Operating Segments

We manage our business as two operating segments, Automation and Analytics and Medication Adherence.

- **Automation and Analytics.** The Automation and Analytics segment is organized around the design, manufacturing, selling, and servicing of medication and supply dispensing systems, pharmacy inventory management systems, and related software. Our Automation and Analytics products are designed to enable our customers to enhance and improve the effectiveness of the medication-use process, the efficiency of the medical-surgical supply chain, overall patient care and clinical and financial outcomes of medical facilities. Through modular configuration and upgrades, our systems can be tailored to specific customer needs.
- **Medication Adherence.** The Medication Adherence segment primarily includes the development, manufacturing and selling of solutions to assist patients to remain adherent to their medication regimens. These solutions are comprised of a variety of tools and aids that may be directly used by a pharmacist or a healthcare provider in their direct care for a patient, or the patient themselves, and include software based systems and medication adherence packaging, packaging equipment and ancillary products and services. These products are used to manage medication administration outside of the hospital setting and include medication adherence products sold under the brand names MTS, SureMed, Ateb, and Omnicell.

For further description of our operating segments, please refer to Note 14, Segment and Geographical Information, of the Notes to the Condensed Consolidated Financial Statements in this quarterly report.

We sell our product and consumable solutions together with related service offerings. Revenue generated in the United States represented 87% and 88% of our total revenues for the three months ended March 31, 2018 and 2017, respectively. We have not sold in the past, and have no future plans to sell our products either directly or indirectly, to customers located in countries that are identified as state sponsors of terrorism by the U.S. Department of State, and are subject to economic sanctions and export controls.

Strategy

The healthcare market is experiencing a period of substantive change. The adoption of electronic healthcare records, new regulatory constraints, and changes in the reimbursement structure have caused healthcare institutions to re-examine their operating structures, re-prioritize their investments, and seek efficiencies. We believe our customers' evolving operating

[Table of Contents](#)

environment creates challenges for any supplier, but also affords opportunities for suppliers that are able to partner with customers to help them meet the changing demands. We have, and intend to continue to, invest in the strategies which we believe have generated and will continue to generate our revenue and earnings growth, while supporting our customers' initiatives and needs. These strategies include:

- **Development of a differentiated platform.** We invest in the development of products that we believe bring patient safety and workflow efficiency to our customers' operations that they cannot get from other competing solutions. These differentiators may be as small as how a transaction operates or information provided on a report or as large as the entire automation of a workflow that would otherwise be completed manually. We intend to continue our focus on differentiating our products, and we carefully assess our investments regularly as we strive to ensure those investments provide the solutions most valuable to our customers.
- **Deliver our solutions to new markets.** Areas of healthcare where work is done manually may benefit from our existing solutions. These areas include hospitals that continue to employ manual operations, healthcare segments of the U.S. market outside hospitals and markets outside the United States. We weigh the cost of entering these new markets against the expected benefits and focus on the markets that we believe are most likely to adopt our products.
- **Expansion of our solutions through acquisitions and partnerships.** Our acquisitions have generally been focused on automation of manual workflows or data analytics, which is the enhancement of data for our customers' decision-making processes. We believe that expansion of our product lines through acquisitions and partnerships to meet our customers changing and evolving expectations is a key component to our historical and future success.

Our investments have been consistent with the strategies outlined above. To differentiate our solutions from others available in the market, in December 2016 we announced the XT Series, our new generation of medication and supply automation that is fully integrated on our Unity enterprise platform. The XT Series includes automated medication and supply dispensing cabinets, the Anesthesia Workstation, and Controlled Substance Manager. The XT Automated Medication Cabinets have been integrated with Connect-Rx® from Aesynt, so customers in the United States and Canada who use AcuDose-Rx® cabinets can take advantage of the new hardware without changing their software or server infrastructure. As part of this product introduction, we developed a new hardware and electronics architecture for the XT Series. The new design enables more medications to be stocked within the same footprint-the XT cabinets offer up to 50% more capacity compared with similar units on the market. In November 2017, we introduced our new IVX Workflow Solution. This new solution powered by IVX Cloud services helps enable pharmacies to safely and efficiently compound and prepare IV treatments. In December 2017, we announced our XR2 Central Pharmacy Automated System, allowing customers to more fully automate their central pharmacies.

Consistent with our strategy to enter new markets, we have made investments in our selling, general and administrative expenses to expand our sales team and market to new customers. Our international efforts have focused primarily on two markets: Western Europe, where we sell solutions through a direct sales team in the United Kingdom, France, and Germany and through resellers in other markets; and in the Middle Eastern countries of the Arabian Peninsula. We have also expanded our sales efforts to medication adherence customers in the United States which has allowed us to sell our automated dispensing solutions and other products to this market.

Expansion of our solutions through acquisitions and partnerships include our acquisition of Aesynt in January 2016, our acquisition of Ateb in December 2016, and most recently, our acquisition of InPharmics in April 2017. Aesynt is a provider of automated medication management systems, including dispensing robots with storage solutions, medication storage and dispensing carts and cabinets, I.V. sterile preparation robotics and software, including software related to medication management. Ateb is a provider of pharmacy-based patient care solutions and medication synchronization to independent and chain retail pharmacies. InPharmics is a provider of advanced pharmacy informatics solutions to hospital pharmacies. We have also developed relationships with major providers of hospital information management systems with the goal of enhancing the interoperability of our products with their systems. We believe that enhanced interoperability will help reduce implementation costs, time, and maintenance for shared clients, while providing new clinical workflows designed to enhance efficiency and patient safety.

We believe that the success of our three leg strategy of differentiated products, expansion into new markets and acquisition and partnership in future periods, will be based on, among other factors:

- Our expectation that the overall market demand for healthcare services will increase as the population grows, life expectancies continue to increase and the quality and availability of healthcare services increases;

[Table of Contents](#)

- Our expectation that the environment of increased patient safety awareness, increased regulatory control, increased demand for innovative products that improve the care experience and increased need for workflow efficiency through the adoption of technology in the healthcare industry will make our solutions a priority in the capital budgets of healthcare facilities; and
- Our belief that healthcare customers will continue to value a consultative customer experience from their suppliers.

Among other financial measures, we utilize product bookings to assess the current success of our strategies. Product bookings consist of all firm orders, as evidenced generally by a non-cancellable contract and purchase order for equipment and software, and by a purchase order for consumables. Equipment and software bookings are generally installable within twelve months and, other than subscription based sales, generally recorded as revenue upon customer acceptance of the installation. Consumables are recorded as revenue upon shipment to a customer or receipt by the customer, depending upon contract terms. Consumable bookings are generally recorded as revenue within one month.

In addition to product solution sales, we provide services to our customers. We provide installation planning and consulting as part of every product sale which is included in the initial price of the solution. To help assure the maximum availability of our systems, our customers typically purchase maintenance and support contracts in increments of one to five years. As a result of the growth of our installed base of customers, our service revenues have also grown.

The growth in the Medication Adherence revenue was primarily driven by further market penetration and adoption of our automated and semi-automated packaging equipment within the United States and Europe, Middle East and Africa ("EMEA"), as well as modest price increases across the product lines.

In the future, we expect our strategies to evolve as the business environment of our customers evolves, but for our focus to remain on improving healthcare with solutions that help change the practices in ways that improve patient and provider outcomes. We expect our investment in differentiated products, new markets, and acquisitions and partnerships to continue.

In fiscal year 2017, we created Centers of Excellence ("COE") for product development, engineering and manufacturing, with the Point of Use COE located at our facilities in California, the Robotics and Central Pharmacy COE located at our facilities near Pittsburgh, Pennsylvania, and the Medication Adherence Consumables COE located at our facilities in St. Petersburg, Florida. As part of this initiative, we reduced our workforce in the first half of 2017 by approximately 100 full-time employees, or about 4% of the total headcount, and closed our Nashville, Tennessee and Slovenia facilities.

Our full-time headcount was approximately 2,370 and 2,350 on March 31, 2018 on December 31, 2017, respectively.

2017 Acquisitions

On April 12, 2017, we completed the acquisition of InPharmics, a technology and services company that provides advanced pharmacy informatics solutions to hospital pharmacies. The purchase price consideration was \$5.0 million, net of cash acquired of \$0.3 million. The results of InPharmics' operations have been included in our consolidated results of operations beginning April 13, 2017, and presented as part of the Automation and Analytics segment.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based on our Condensed Consolidated Financial Statements, which have been prepared in accordance with United States Generally Accepted Accounting Principles ("U.S. GAAP"). The preparation of these financial statements requires us to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. We regularly review our estimates and assumptions, which are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of certain assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and assumptions. We believe the following critical accounting policies are affected by significant judgments and estimates used in the preparation of our Condensed Consolidated Financial Statements:

- Revenue recognition;
- Allowance for doubtful accounts and notes receivable from investment in sales-type leases;
- Inventory;
- Software development costs;

[Table of Contents](#)

- Business combinations;
- Valuation and impairment of goodwill, intangible assets and other long-lived assets;
- Goodwill and acquired intangible assets
- Share-based compensation; and
- Accounting for income taxes.

There were no material changes in the matters for which we make critical accounting estimates in the preparation of our Condensed Consolidated Financial Statements during the three months ended March 31, 2018 as compared to those disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our annual report on Form 10-K for the year ended December 31, 2017, except as discussed in "Recently adopted authoritative guidance" in Note 1 to the Condensed Consolidated Financial Statements in this quarterly report.

Recently issued authoritative guidance

Refer to Note 1, Organization and Summary of Significant Accounting Policies, of the Notes to Condensed Consolidated Financial Statements in this quarterly report for a description of recently issued accounting pronouncements, including the expected dates of adoption and estimated effects on our results of operations, financial position and cash flows.

RESULTS OF OPERATIONS**Total Revenues**

	Three months ended March 31,			
	2018	2017	Change in	
			\$	%
	(Dollars in thousands)			
Product revenues	\$ 130,104	\$ 98,702	\$ 31,402	32%
<i>Percentage of total revenues</i>	<i>71%</i>	<i>66%</i>		
Service and other revenues	52,515	49,851	2,664	5%
<i>Percentage of total revenues</i>	<i>29%</i>	<i>34%</i>		
Total revenues	<u>\$ 182,619</u>	<u>\$ 148,553</u>	<u>\$ 34,066</u>	<u>23%</u>

Product revenues represented 71% and 66% of total revenues for the three months ended March 31, 2018 and March 31, 2017, respectively. Product revenues increased by \$31.4 million due to increased sales for the Medication Adherence segment of \$5.5 million and increased sales for the Automation and Analytics segment of \$25.9 million. The increase in the Automation and Analytics segment was attributed to an increase in sales of XT series products of \$24.0 million as the sales for the three months period ended March 31, 2017 had a slower conversion of bookings and backlog into revenue due to the introduction of the new XT series of products in the fourth quarter of 2016. The remainder of the increase in the Automation and Analytics segment was attributed to an increase in sales from IV solutions and Performance Center. The increase in the Medication Adherence segment was primarily attributed to higher completed installations of our VBM products compared to the three months ended March 31, 2017.

Service and other revenues represented 29% and 34% of total revenues for the three months ended March 31, 2018 and March 31, 2017, respectively. Service and other revenues include revenues from service and maintenance contracts and rentals of automation systems. Service and other revenues increased by \$2.7 million primarily due to an increase from our Automation and Analytics segment of \$3.3 million attributed to an increase in our installed customer base.

Our international sales represented 13% and 12% of total revenues for the three months ended March 31, 2018 and 2017, respectively, and are expected to be affected by foreign currency exchange rates fluctuations. We are unable to predict the extent to which revenue in future periods will be impacted by changes in foreign currency exchange rates.

Our ability to continue to grow revenue is dependent on our ability to continue to obtain orders from customers, our ability to produce quality products and consumables to fulfill customer demand, the volume of installations we are able to complete, our ability to meet customer needs by providing a quality installation experience, and our flexibility in manpower allocations among customers to complete installations on a timely basis. The timing of our product revenues for equipment is primarily dependent on when our customers' schedules allow for installations.

Financial Information by Segment

Revenues

	Three months ended March 31,			
	2018	2017	Change in	
			\$	%
Revenues:	(Dollars in thousands)			
Automation and Analytics	\$ 151,406	\$ 122,170	\$ 29,236	24%
<i>Percentage of total revenues</i>	83%	82%		
Medication Adherence	31,213	26,383	4,830	18%
<i>Percentage of total revenues</i>	17%	18%		
Total revenues	\$ 182,619	\$ 148,553	\$ 34,066	23%

The \$29.2 million increase in Automation and Analytics revenues for the three months ended March 31, 2018 in comparison to the three months ended March 31, 2017 was due to an increase in product revenue of \$25.9 million and an increase in service revenues of \$3.3 million. The increase in product revenue in the Automation and Analytics segment was attributed to an increase in sales of XT series products of \$24.0 million as the sales for the three months period ended March 31, 2017 had a slower conversion of bookings and backlog into revenue due to the introduction of the new XT series of products in the fourth quarter of 2016. The remainder of the increase in product revenue in the Automation and Analytics segment was attributed to increases in sales from IV solutions and Performance Center. The service revenue increase of \$3.3 million was primarily attributed to an increase in our installed customer base.

Medication Adherence revenues increased by \$4.8 million for the three months ended March 31, 2018 in comparison to the three months ended March 31, 2017. The increase in revenue was due to an increase in product revenue of \$5.5 million, offset by a decrease in service revenue of \$0.6 million. The product revenue increase of \$5.5 million was attributed primarily to higher completed installations of our VBM products compared to the three months ended March 31, 2017.

Cost of Revenues and Gross Profit

Cost of revenues is primarily comprised of three general categories: (i) standard product costs which account for the majority of the product cost of revenues that are provided to customers, and are inclusive of purchased material, labor to build the product and overhead costs associated with production; (ii) installation costs as we install our equipment at the customer site and include costs of the field installation personnel, including labor, travel expense, and other expenses; and (iii) other costs, including variances in standard costs and overhead, scrap costs, rework, warranty, provisions for excess and obsolete inventory and amortization of software development costs and intangibles.

	Three months ended March 31,			
	2018	2017	Change in	
			\$	%
Cost of revenues:	(Dollars in thousands)			
Automation and Analytics	\$ 78,242	\$ 68,761	\$ 9,481	14%
<i>As a percentage of related revenues</i>	52%	56%		
Medication Adherence	21,922	17,601	4,321	25%
<i>As a percentage of related revenues</i>	70%	67%		
Total cost of revenues	\$ 100,164	\$ 86,362	\$ 13,802	16%
<i>As a percentage of total revenues</i>	55%	58%		
Gross profit:				
Automation and Analytics	\$ 73,164	\$ 53,409	\$ 19,755	37%
<i>Automation and Analytics gross margin</i>	48%	44%		
Medication Adherence	9,291	8,782	509	6%
<i>Medication Adherence gross margin</i>	30%	33%		
Total gross profit	\$ 82,455	\$ 62,191	\$ 20,264	33%
<i>Total gross margin</i>	45%	42%		

Cost of Revenues. Cost of revenues for the three months ended March 31, 2018 compared to the three months ended March 31, 2017 increased by \$13.8 million, of which \$9.5 million was attributed to the increase of cost of revenue in our Automation and Analytics segment and \$4.3 million was attributed to the increase of cost of revenue in our Medication Adherence segment. The increase of the cost of revenue in the Automation and Analytics is consistent with the increase of revenue of \$29.2 million in the Automation and Analytics for the three months ended March 31, 2018 compared to the three months ended March 31, 2017. The increase of the cost of revenue in the Medication Adherence segment is consistent with the increase of revenue of \$4.8 million in the Medication Adherence segment for the three months ended March 31, 2018 compared to the three months ended March 31, 2017. Overall changes to gross margin primarily relate to product mix from sales for the periods presented.

Operating Expenses and Income (Loss) from Operations

	Three months ended March 31,			
	2018	2017	Change in	
			\$	%
(Dollars in thousands)				
Operating expenses:				
Research and development	\$ 16,537	\$ 16,803	\$ (266)	(2)%
<i>As a percentage of total revenues</i>	9 %	11 %		
Selling, general and administrative	65,285	61,940	3,345	5 %
<i>As a percentage of total revenues</i>	36 %	42 %		
Total operating expenses	\$ 81,822	\$ 78,743	\$ 3,079	4 %
<i>As a percentage of total revenues</i>	45 %	53 %		
Income (loss) from operations:				
Automation and Analytics	\$ 24,774	\$ 5,347	\$ 19,427	363 %
<i>Operating margin</i>	16 %	4 %		
Medication Adherence	(908)	(2,414)	1,506	(62)%
<i>Operating margin</i>	(3)%	(9)%		
Corporate Expenses	23,233	19,485	3,748	19 %
Total income (loss) from operations	\$ 633	\$ (16,552)	\$ 17,185	(104)%
<i>Total operating margin</i>	— %	(11)%		

Research and Development. The \$0.3 million decrease in research and development expenses for the three months ended March 31, 2018 compared to three months ended March 31, 2017 was primarily driven by a decrease in research and development expenses of \$1.1 million in our Automation and Analytics segment, offset by an increase of \$0.6 million in our Medication Adherence segment. The decrease in the Automation and Analytics segment is primarily attributed to a one-time restructuring expense of \$0.8 million included in the three months ended March 31, 2017. The increase in the Medication Adherence segment is attributed to continued investments in product development.

Selling, General and Administrative. The \$3.3 million increase in selling, general and administrative expenses for the three months ended March 31, 2018 compared to the three months ended March 31, 2017 was primarily due to the increase in corporate-related expenses of \$3.6 million as a result of an increase in employee-related expenses due to the increase in headcount.

Provision for (Benefit from) Income Taxes

	Three months ended			
	March 31, 2018	March 31, 2017	Change in	
			\$	%
(Dollars in thousands)				
Provision for (benefit from) income taxes	\$ (4,816)	\$ (8,673)	\$ 3,857	(44)%
<i>Effective tax rate on earnings</i>				

Our annual effective tax rate before discrete items was 18.3% and 39.1% for the three months ended March 31, 2018 and 2017, respectively. The decrease in the estimated annual effective tax rate for the three months ended March 31, 2018 compared to the same period in 2017 was primarily due to U.S. tax reform legislation that reduced the statutory corporate income tax rate from 35% to 21%, increase in Federal Research & Development credits and company jurisdictional restructuring.

LIQUIDITY AND CAPITAL RESOURCES

We had cash and cash equivalents of \$43.8 million at March 31, 2018 compared to \$32.4 million at December 31, 2017. All of our cash and cash equivalents are invested in demand deposits only.

Our cash position and working capital at March 31, 2018 and December 31, 2017 were as follows:

	March 31, 2018	December 31, 2017
	(In thousands)	
Cash	43,773	32,424
Working Capital	\$ 150,804	\$ 147,066

All of our cash and cash equivalents for these periods were invested in bank demand deposits. Our ratio of current assets to current liabilities was 1.7:1 at March 31, 2018 and 1.7:1 at December 31, 2017.

Sources of Cash

Credit Agreement

On January 5, 2016, we entered into a \$400 million secured credit facility pursuant to a credit agreement, by and among us, the lenders from time to time party thereto, Wells Fargo Securities, LLC, as sole lead arranger and Wells Fargo Bank, National Association, as administrative agent (the "Credit Agreement"). The Credit Agreement provides for a \$200 million term loan facility (the "Term Loan Facility"), and prior to the amendment discussed below, a \$200 million revolving credit facility (the "Revolving Credit Facility" and together with the Term Loan Facility, the "Facilities"). In addition, the Credit Agreement includes a letter of credit sub-limit of up to \$10 million and a swing line loan sub-limit of up to \$10 million.

On December 26, 2017 and April 11, 2017, we entered into the amendments to the Credit Agreement. Under these amendments, the Revolving Credit Facility was increased from \$200 million to \$315 million and certain other modifications were made. Refer to Note 8, Debt, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report. We expect to use future loans under the Revolving Credit Facility, if any, for general corporate purposes, including acquisitions.

As of March 31, 2018, the outstanding balance from the Facilities was \$214.5 million and we were in compliance with all covenants.

Distribution Agreement

On November 3, 2017, we entered into a Distribution Agreement (the "Distribution Agreement") with J.P. Morgan Securities LLC, Wells Fargo Securities, LLC and HSBC Securities (USA) Inc., as our sales agents (collectively, the "Sales Agents"), pursuant to which we may offer and sell from time to time through the Sales Agents up to \$125 million maximum aggregate offering price of our common stock. Sales of the common stock pursuant to the Distribution Agreement may be made in negotiated transactions or transactions that are deemed to be "at the market" offerings as defined in Rule 415 under the Securities Act, including sales made directly on the Nasdaq Stock Market, or sales made to or through a market maker other than on an exchange. We intend to use the net proceeds from the sale, if any, of common stock in the offering for general corporate purposes, which may include, without limitation, the acquisition of complementary businesses, the repayment of outstanding indebtedness, capital expenditures and working capital.

For the three months ended March 31, 2018, we did not sell any common stock under the Distribution Agreement.

Uses of Cash

Our future uses of cash are expected to be primarily for working capital, capital expenditures, loan principal and interest payments, and other contractual obligations. We also expect a continued use of cash for potential acquisitions and acquisition assessment activities.

[Table of Contents](#)

Our stock repurchase programs have a total of \$54.9 million remaining for future repurchases as of March 31, 2018, which may result in additional use of cash. See "Stock Repurchase Program" under Note 12. Employee Benefits and Share-Based Compensation, of the Notes to Condensed Consolidated Financial Statements included in this quarterly report. There were no stock repurchases during the three months ended March 31, 2018 and 2017.

Based on our current business plan and revenue backlog, we believe that our existing cash and cash equivalents, our anticipated cash flows from operations, cash generated from the exercise of employee stock options and purchases under our employee stock purchase plan, along with the availability of funds under the Facilities will be sufficient to meet our cash needs for working capital, capital expenditures, potential acquisitions, and other contractual obligations for at least the next twelve months. For periods beyond the next twelve months, we also anticipate that our net operating cash flows plus existing balances of cash and cash equivalents will suffice to fund the continued growth of our business.

Cash Flows

The following table summarizes, for the periods indicated, selected items in our Condensed Consolidated Statements of Cash Flows:

	Three months ended	
	March 31, 2018	March 31, 2017
	(In thousands)	
Net cash provided by (used in):		
Operating activities	\$ 18,856	\$ 28,182
Investing activities	(14,540)	(6,837)
Financing activities	5,741	(30,136)
Effect of exchange rate changes on cash and cash equivalents	1,292	651
Net increase (decrease) in cash and cash equivalents	<u>\$ 11,349</u>	<u>\$ (8,140)</u>

Operating activities

We expect cash from our operating activities to fluctuate in future periods as a result of a number of factors, including the timing of our billings and collections, our operating results and the timing of other liability payments.

Net cash provided by operating activities was \$18.9 million for the three months ended March 31, 2018, primarily as a result of the net income of \$2.7 million adjusted for non-cash items and changes in assets and liabilities. The non-cash items primarily consisted of depreciation and amortization expense of \$12.3 million, and share-based compensation expense of \$6.5 million, deferred income taxes of \$5.1 million and \$0.6 million of amortization of debt financing fees. The net cash outflow which was contributed to changes in assets and liabilities include (i) an increase in accounts receivable and unbilled receivable, net of \$0.6 million due to the increase in unbilled receivable balances offset by an increase in collections, (ii) an increase in inventories of \$6.9 million for inventory buildup in support of forecasted sales, (iii) a decrease in accounts payable of \$9.4 million primarily due to the timing of payments, (iv) an increase in the investment in sales-type leases of \$1.5 million, (v) an increase in other current assets of \$1.0 million, (iv) an increase in other long-term assets of \$1.7 million. These outflows were offset by an increase in deferred revenue of \$15.1 million due to the timing of orders and revenue being recognized for installed product, an increase in other accrued liabilities of \$4.3 million, a decrease in prepaid expenses of \$0.8 million, and an increase in accrued compensation of \$2.4 million.

Net cash provided by operating activities was \$28.2 million for the three months ended March 31, 2017, primarily as a result of the net loss of \$10.3 million adjusted for non-cash items and changes in assets and liabilities. The non-cash items primarily consisted of depreciation and amortization expense of \$12.4 million, share-based compensation expense of \$5.5 million, deferred income taxes of \$8.8 million and \$0.4 million of amortization of debt financing fees. The cash inflow attributed to changes in assets and liabilities includes (i) a decrease in accounts receivable of \$21.6 million due to timing of collections, (ii) an increase in accrued compensation of \$2.0 million, as a result of the restructuring plan, (iii) an increase in deferred revenue of \$8.5 million due to timing of orders and revenue being recognized on installed product, (iv) a decrease in net investment in sales-type leases of \$1.1 million, and (v) an increase in accounts payable of \$11.1 million primarily due to the timing of payments. These inflows were partially offset by an increase in inventories of \$6.9 million for inventory buildup in support of forecasted sales, particularly for the XT series and an increase in other long-term assets of \$9.4 million.

Investing activities

[Table of Contents](#)

Net cash used in investing activities was \$14.5 million for the three months ended March 31, 2018, which consisted of capital expenditures of \$9.3 million for property and equipment and \$5.3 million for costs of software development.

Net cash used in investing activities was \$6.8 million for the three months ended March 31, 2017, which consisted of capital expenditures of \$2.5 million for property and equipment and \$4.4 million for costs of software development mainly related to the Performance Center offering and purchase of intangibles.

Financing activities

Net cash provided by financing activities was \$5.7 million for the three months ended March 31, 2018, primarily from \$9.5 million in proceeds from employee stock option exercises and employee stock plan purchases, partially offset by the repayment of \$2.5 million of the credit facilities and \$1.3 million in employees' taxes paid related to restricted stock unit vesting.

Net cash used in financing activities was \$30.1 million for the three months ended March 31, 2017 primarily from repayment of \$40.0 million of the credit facilities and \$1.1 million in employees' taxes paid related to restricted stock units, partially offset by \$10.9 million in proceeds from employee stock option exercises and employee stock plan purchases.

Contractual Obligations

There have been no significant changes during the three months ended March 31, 2018 to the contractual obligations disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations, set forth in Part II, Item 7, of our annual report on Form 10-K for the year ended December 31, 2017.

Contractual obligations as of March 31, 2018 are as follows:

	Payments due by period				
	Total	Remainder of 2018	2019 and 2020	2021 and 2022	Thereafter
	(In thousands)				
Operating leases ⁽¹⁾	\$ 77,178	\$ 8,896	\$ 22,566	\$ 19,333	\$ 26,383
Purchase obligations ⁽²⁾	55,424	51,293	3,001	1,104	26
Term loan facility ⁽³⁾	180,000	15,000	47,500	117,500	—
Revolving credit facility ⁽³⁾	34,500	—	—	34,500	—
Total ⁽⁴⁾⁽⁵⁾	<u>\$ 347,102</u>	<u>\$ 75,189</u>	<u>\$ 73,067</u>	<u>\$ 172,437</u>	<u>\$ 26,409</u>

(1) Commitments under operating leases relate primarily to leasehold property and office equipment.

(2) We purchase components from a variety of suppliers and use contract manufacturers to provide manufacturing services for our products. During the normal course of business, we issue purchase orders with estimates of our requirements several months ahead of the delivery dates. These amounts are associated with agreements that are enforceable and legally binding. The amounts under such contracts are included in the table above because we believe that cancellation of these contracts is unlikely and we expect to make future cash payments according to the contract terms or in similar amounts for similar materials.

(3) Amounts shown for term loan and revolving credit facility are principal repayments only. Due to use of interest rate swaps, the cash interest expense is partly variable and partly fixed, and is not reflected in the above table. Refer to Note 8, Debt, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report.

(4) We have recorded \$7.1 million for uncertain tax positions under long-term liabilities as of March 31, 2018 in accordance with U.S. GAAP. As these liabilities do not reflect actual tax assessments, the timing and amount of payments we might be required to make will depend upon a number of factors. Accordingly, as the timing and amount of payment cannot be estimated, the \$7.1 million in uncertain tax position liabilities have not been included in the table above.

(5) Refer to Note 10, Commitments and Contingencies, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report.

Off-Balance Sheet Arrangements

[Table of Contents](#)

As of March 31, 2018, we had no off-balance sheet arrangements as defined under Regulation S-K 303(a)(4) of the Securities Exchange Act of 1934, as amended, and the instructions thereto.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks related to fluctuations in foreign currency exchange rates and interest rates.

Foreign Currency Exchange Risk

We operate in foreign countries which expose us to market risk associated with foreign currency exchange rate fluctuations between the U.S. dollar and various foreign currencies, the most significant of which is the British Pound. In order to manage foreign currency risk, at times we enter into foreign exchange forward contracts to mitigate risks associated with changes in spot exchange rates of mainly non-functional currency denominated assets or liabilities of our foreign subsidiaries. In general, the market risk related to these contracts is offset by corresponding gains and losses on the hedged transactions. By working only with major banks and closely monitoring current market conditions, we seek to limit the risk that counterparties to these contracts may be unable to perform. We do not enter into derivative contracts for trading purposes. As of March 31, 2018, we did not have any outstanding foreign exchange forward contracts.

Interest Rate Fluctuation Risk

We are exposed to interest rate risk through our borrowing activities. As of March 31, 2018, we had total debt under the Credit Agreement of \$214.5 million. See Note 8, Debt, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report.

We use interest rate swap agreements to protect against adverse fluctuations in interest rates by reducing our exposure to variability in cash flows relating to interest payments on a portion of our outstanding debt. Our interest rate swaps, which are designated as cash flow hedges, involve the receipt of variable amounts from counterparties in exchange for us making fixed-rate payments over the life of the agreements. We do not hold or issue any derivative financial instruments for speculative trading purposes. During 2016, we entered into an interest rate swap agreement with a combined notional amount of \$100 million with one counter-party that became effective beginning on June 30, 2016 and matures on April 30, 2019. At March 31, 2018, the total debt under the credit facility exposed to interest rate fluctuation risk was \$114.5 million. An immediate increase of 1% in interest rate would result in \$1.1 million of interest expense per year.

There have been no significant changes in our market risk exposures during the three months ended March 31, 2018 as compared to the market risk exposures disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations, set forth in Part II, Item 7A, of our annual report on Form 10-K for the year ended December 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of the end of the period covered by this report. These disclosure controls and procedures are designed to ensure that the information required to be disclosed by us in this report was (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Based on such evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of the end of the period covered by this report.

Limitations on Effectiveness of Controls

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Our internal control system is designed to provide reasonable assurance regarding the preparation and fair presentation of financial statements for external purposes in accordance with U.S. GAAP. All internal control systems, no matter how well designed, have inherent limitations and can provide only reasonable assurance that the objectives of the internal control system are met.

Changes in Internal Control Over Financial Reporting

[Table of Contents](#)

There have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the three months ended March 31, 2018.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information set forth under "Legal Proceedings" in Note 10, Commitments and Contingencies, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report is incorporated herein by reference.

ITEM 1A. RISK FACTORS

We have identified the following risks and uncertainties that may have a material adverse effect on our business, financial condition or results of operations. Our business faces significant risks and the risks described below may not be the only risks we face. Additional risks not presently known to us or that we currently believe are immaterial may also significantly impair our business operations. If any of these risks occur, our business, results of operations or financial condition could suffer and the market price of our common stock could decline.

In assessing these risks, you should also refer to other information contained in this quarterly report on Form 10-Q, including the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations: and our Condensed Consolidated Financial Statements and related Notes. We have marked with an asterisk (*) those risks, when applicable, that reflect substantive changes from, or additions to, the risks described in our annual report on Form 10-K for the year ended December 31, 2017, if any.

If we fail to develop new products or enhance our existing products to react to rapid technological change and market demands in a timely and cost-effective manner, or if newly developed solutions, such as our XT Series, XR2 Automated Central Pharmacy System and IVX workflow, are not adopted in the same time frame and/or quantity as we anticipate, our business will suffer.

We must develop new products or enhance our existing products with improved technologies to meet rapidly evolving customer requirements. We are constantly engaged in the development process for next generation products, and we need to successfully design our next generation and other products for customers who continually require higher performance and functionality at lower costs. The development process for these advancements is lengthy and usually requires us to accurately anticipate technological innovations and market trends. Developing and enhancing these products can be time-consuming, costly and complex. Our ability to fund product development and enhancements partially depends on our ability to generate revenues from our existing products.

There is a risk that these developments, such as our XR2 Automated Central Pharmacy System and IVX semi-automated workflow solution, or enhancements, will be late, will have technical problems, will fail to meet customer or market specifications or will not be competitive with other products using alternative technologies that offer comparable performance and functionality. While our business strategy includes a goal of advancing our platform with new product introductions annually, we may be unable to successfully develop additional next generation products, new products or product enhancements on an annual basis or at all. Our next generation products, such as our XT Series, or any new products, such as our M5000, VBM 200F packaging equipment for multimedication blister cards, XR2 Automated Central Pharmacy System or RDX Essential solution designed for the European retail pharmacy market, or product enhancements may not be accepted in new or existing markets. If we fail to continue to develop and introduce new products or product enhancements in a timely manner or on a cost-effective basis, we may be unable to achieve our goal of producing solutions that support fully automated central pharmacy operations, and our business will suffer.

We may not be able to successfully integrate acquired businesses or technologies into our existing business, including those of Aesynt, Ateb and InPharmics, which could negatively impact our operating results.

As a part of our business strategy we may seek to acquire businesses, technologies or products in the future. For example, in January 2016, we acquired Aesynt, in December 2016, we acquired Ateb and in April 2017, we acquired InPharmics. We cannot provide assurance that any acquisition or any future transaction we complete will result in long-term benefits to us or our stockholders, or that our management will be able to integrate or manage the acquired business effectively. Acquisitions entail numerous risks, including difficulties associated with the integration of operations, technologies, products and personnel that, if realized, could harm our operating results. Risks related to potential and completed acquisitions include, but are not limited to:

- difficulties in combining previously separate businesses into a single unit and the complexity of managing a more dispersed organization as sites are acquired;

[Table of Contents](#)

- complying with international labor laws that may restrict our ability to right-size organizations and gain synergies across acquired operations;
- complying with regulatory requirements, such as those of the Food and Drug Administration, that we were not previously subject to;
- the substantial costs that may be incurred and the substantial diversion of management's attention from day-to-day business when evaluating and negotiating such transactions and then integrating an acquired business;
- discovery, after completion of the acquisition, of liabilities assumed from the acquired business or of assets acquired that are broader in scope and magnitude or are more difficult to manage than originally assumed;
- failure to achieve anticipated benefits such as cost savings and revenue enhancements;
- difficulties related to assimilating the products or key personnel of an acquired business;
- failure to understand and compete effectively in markets in which we have limited previous experience; and
- difficulties in integrating newly acquired products and solutions into a logical offering that our customers understand and embrace.

Successful integration of acquired operations, products and personnel into Omnicell may place a significant burden on the combined company's management and internal resources. We may also experience difficulty in effectively integrating the different cultures and practices of any acquired entity. The challenges of integrating acquired entities could disrupt the combined company's ongoing business, distract its management focus from other opportunities and challenges, and increase expenses and working capital requirements. The diversion of management attention and any difficulties encountered in the transition and integration process could harm our business, financial condition and operating results.

We may fail to realize the potential benefits of recently acquired businesses.

In 2016 we acquired Aesynt and Ateb, and in 2017 we acquired InPharmics, in an effort to realize certain potential benefits, including expansion of the combined businesses and broader market opportunities. However, our ability to realize these potential benefits depends on our successfully combining the businesses of Omnicell, Aesynt, Ateb and InPharmics. The combined company may fail to realize the potential benefits of the acquisition for a variety of reasons, including the following:

- inability or failure to expand product bookings and sales;
- inability to maintain business relationships with customers and suppliers of newly acquired companies, such as Ateb and InPharmics, due to post-acquisition disruption;
- inability or failure to effectively coordinate sales and marketing efforts to communicate the capabilities of the combined company;
- inability or failure to successfully integrate and harmonize financial reporting and information technology systems;
- inability or failure to achieve the expected operational and cost efficiencies; and
- loss of key employees.

The actual integration may result in additional and unforeseen expenses or delays. If we are not able to successfully integrate the acquired businesses and their operations, or if there are delays in combining the businesses, the anticipated benefits of the acquisition may not be realized fully or at all or may take longer to realize than expected.

We have incurred substantial debt, which could impair our flexibility and access to capital and adversely affect our financial position.

In connection with the Aesynt Acquisition, we entered into a \$400.0 million senior secured credit facility pursuant to a credit agreement, by and among us, the lenders from time to time party thereto, Wells Fargo Securities, LLC, as sole lead arranger and Wells Fargo Bank, National Association, as administrative agent (as subsequently amended, the "Credit Agreement"). In December 2017, we entered into an amendment to the Credit Agreement with Wells Fargo Bank, National Association and certain other lenders pursuant to which the revolving credit facility was increased from \$200 million to \$315 million and certain other modifications were made, including amendments to certain negative covenants. The Credit Agreement also provides for a \$200.0 million term loan facility. The loan balances at March 31, 2018 were \$180.0 million of term loans and \$34.5 million of revolving loans.

Our debt may:

- limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions or other general business purposes;
- limit our ability to use our cash flow or obtain additional financing for future working capital, capital expenditures, acquisitions or other general business purposes;
- require us to use a substantial portion of our cash flow from operations to make debt service payments;
- limit our flexibility to plan for, or react to, changes in our business and industry;
- place us at a competitive disadvantage compared to our less leveraged competitors; and
- increase our vulnerability to the impact of adverse economic and industry conditions.

Our ability to meet our debt service obligations will depend on our future performance, which will be subject to financial, business and other factors affecting our operations, many of which are beyond our control. If we do not have sufficient funds to meet our debt service obligations, we may be required to refinance or restructure all or part of our existing debt, sell assets, borrow more money or sell securities, none of which we can assure you that we would be able to do in a timely manner, or at all. In addition, as more fully described in the risk factor titled "Covenants in our Credit Agreement restrict our business and operations in many ways and if we do not effectively manage our compliance with these covenants, our financial conditions and results of operations could be adversely affected" below, the Credit Agreement includes customary restrictive covenants that impose operating and financial restrictions on us, including restrictions on our ability to take actions that could be in our best interests.

If goodwill or other intangible assets that we recorded in connection with the Aesynt, Ateb and InPharmics acquisitions, or have recorded in connection with prior acquisitions, become impaired, we could be required to take significant charges against earnings.

In connection with the accounting for the Aesynt and Ateb acquisitions in 2016 and the InPharmics acquisition in 2017, we recorded a significant amount of goodwill and other intangible assets, and we maintain significant goodwill and other intangible assets relating to prior acquisitions, such as our acquisitions of MTS, Avantec and Mach4. As of March 31, 2018, we had recorded approximately \$499.5 million net, in goodwill and intangible assets in connection with past acquisitions. Under U.S. generally accepted accounting principles ("GAAP"), we must assess, at least annually and potentially more frequently, whether the value of goodwill and other indefinite-lived intangible assets has been impaired. Amortizing intangible assets will be assessed for impairment in the event of an impairment indicator. Any reduction or impairment of the value of goodwill or other intangible assets will result in a charge against earnings, which could materially adversely affect our results of operations and shareholders' equity in future periods.

Unfavorable economic and market conditions, a decreased demand in the capital equipment market and uncertainty regarding the rollout of government legislation in the healthcare industry could adversely affect our operating results.

Customer demand for our products is significantly linked to the strength of the economy. If decreases in demand for capital equipment caused by weak economic conditions and decreased corporate and government spending, including any effects of fiscal budget balancing at the federal level, deferrals or delays of capital equipment projects, longer time frames for capital equipment purchasing decisions or generally reduced expenditures for capital solutions occurs, we will experience decreased revenues and lower revenue growth rates and our operating results could be materially and adversely affected.

Additionally, as the U.S. Federal Government implements healthcare reform legislation, and as Congress, regulatory agencies and other state governing organizations continue to review and assess additional healthcare legislation and regulations, there may be an impact on our business. Healthcare facilities may decide to postpone or reduce spending until the implications of such healthcare enactments are more clearly understood, which may affect the demand for our products and harm our business.

The medication management and supply chain solutions market is highly competitive and we may be unable to compete successfully against new entrants and established companies with greater resources and/or existing business relationships with our current and potential customers.*

The medication management and supply chain solutions market is intensely competitive. We expect continued and increased competition from current and future competitors, many of which have significantly greater financial, technical, marketing and other resources than we do. Our current direct competitors in the medication management and supply chain solutions market include Becton, Dickinson and Company (through its acquisition of CareFusion Corporation), ARxIUM,

[Table of Contents](#)

Cerner Corporation, Swisslog Healthcare as a division of KUKA (including through its acquisition of Talyst Systems, LLC), TouchPoint, Inc., Cardinal Health, Inc., PAR Excellence Systems, Inc., TECSYS Inc., MEPS Real-Time, Inc. (doing business as Intelliguard), Infor, Inc., Baxter Healthcare Corporation, Goetech LLC (doing business as MedKeeper), Willach Pharmacy Solutions, DIH Technologies Corporation, Yuyama Co., Ltd, RoboPharma B.V., Meditech-Pharma, Knapp AG and KLS Steuerungstechnik GmbH. Our current direct competitors in the medication adherence solutions market include Drug Package, Inc., ARxIUM, Manchac Technologies, LLC (through its Dosis product line), RX Systems, Inc., PillPack, Inc., Digital Pharmacist Inc., VoicePort, LLC and Synergy Medical Systems, in the United States, and Jones Packaging Ltd., Synergy Medical Systems, Medicine-on-Time, LLC, Global Factories B.V., and WebsterCare outside the United States.

The competitive challenges we face in the medication management and supply chain solutions market include, but are not limited to, the following:

- certain competitors may offer or have the ability to offer a broader range of solutions in the marketplace that we are unable to match;
- certain competitors may develop alternative solutions to the customer problems our products are designed to solve that may provide a better customer outcome or a lower cost of operation;
- certain competitors may develop new features or capabilities for their products not previously offered that could compete directly with our products;
- competitive pressures could result in increased price competition for our products and services, fewer customer orders and reduced gross margins, any of which could harm our business;
- current and potential competitors may make strategic acquisitions or establish cooperative relationships among themselves or with third parties, including larger, more established healthcare supply companies, such as the acquisition of CareFusion Corporation by Becton, Dickinson and Company and the acquisition of Talyst Systems, LLC. by Swisslog Healthcare, thereby increasing their ability to develop and offer a broader suite of products and services to address the needs of our prospective customers;
- our competitive environment is currently experiencing a significant degree of consolidation which could lead to competitors developing new business models that require us to adapt how we market, sell or distribute our products;
- other established or emerging companies may enter the medication management and supply chain solutions market with products and services that are preferred by our current and potential customers based on factors such as features, capabilities or cost;
- our competitors may develop, license or incorporate new or emerging technologies or devote greater resources to the development, promotion and sale of their products and services than we do;
- certain competitors have greater brand name recognition and a more extensive installed base of medication and supply dispensing systems or other products and services than we do, and such advantages could be used to increase their market share;
- certain competitors may have existing business relationships with our current and potential customers, which may cause these customers to purchase medication and supply dispensing systems or automation solutions from these competitors; and
- our competitors may secure products and services from suppliers on more favorable terms or secure exclusive arrangements with suppliers or buyers that may impede the sales of our products and services.

Any reduction in the demand for or adoption of our medication and supply systems, related services, or consumables would reduce our revenues.

Our medication and supply dispensing systems represent only one approach to managing the distribution of pharmaceuticals and supplies at acute healthcare facilities and our medication packaging systems represent only one way of managing medication distribution at non-acute care facilities. While a significant portion of domestic acute care facilities have adopted some level of medication and/or supply automation, a significant portion of domestic and international healthcare facilities still use traditional approaches in some form that do not include fully automated methods of medication and supply management. As a result, we must continuously educate existing and prospective customers about the advantages of our products, which requires significant sales efforts, particularly when we are seeking to replace an incumbent supplier of

medication and supply automation solutions and can cause longer sales cycles. Despite our significant efforts and extensive time commitments in sales to healthcare facilities, we cannot be assured that our efforts will result in sales to these customers.

In addition, our medication and supply dispensing systems and our more complex automated packaging systems typically represent a sizable initial capital expenditure for healthcare organizations. Changes in the budgets of these organizations and the timing of spending under these budgets can have a significant effect on the demand for our medication and supply dispensing systems and related services. These budgets are often supported by cash flows that can be negatively affected by declining investment income and influenced by limited resources, increased operational and financing costs, macroeconomic conditions such as unemployment rates and conflicting spending priorities among different departments. Any decrease in expenditures by healthcare facilities or increased financing costs could decrease demand for our medication and supply dispensing systems and related services and reduce our revenues.

Changing customer requirements could decrease the demand for our products and services and our new product solutions may not achieve market acceptance.

The medication management and supply chain solutions market is characterized by evolving technologies and industry standards, frequent new product introductions and dynamic customer requirements that may render existing products obsolete or less competitive. The medication management and supply chain solutions market could erode rapidly due to unforeseen changes in the features and functions of competing products, as well as the pricing models for such products. Our future success will depend in part upon our ability to enhance our existing products and services and to develop and introduce new products and services to meet changing customer requirements. The process of developing products and services such as those we offer is extremely complex and is expected to become increasingly more complex and expensive in the future as new technologies are introduced. If we are unable to enhance our existing products or develop new products to meet changing customer requirements, and bring such enhancements and products to market in a timely manner, demand for our products could decrease.

We cannot provide assurance that we will be successful in marketing any new products or services that we introduce, that new products or services will compete effectively with similar products or services sold by our competitors, or that the level of market acceptance of such products or services will be sufficient to generate expected revenues and synergies with our other products or services. For example, we recently announced our XR2 Automated Central Pharmacy System, IVX workflow and RDX Essential solutions, and we cannot guarantee that demand will meet our expectations. In addition, our XT Series, as well as our M5000 and VBM 200F automated pharmacy solutions for multi-medication blister card packaging, are relatively new to the market. Deployment of new products or services often requires interoperability with other Omnicell products or services as well as with healthcare facilities' existing information management systems. If these products or services fail to satisfy these demanding technological objectives, our customers may be dissatisfied and we may be unable to generate future sales.

The healthcare industry faces changes to healthcare legislation and other healthcare reform, as well as financial constraints and consolidation, which could adversely affect the demand for our products and services.

The healthcare industry has faced, and will likely continue to face, significant financial constraints. U.S. government legislation such as the American Recovery and Reinvestment Act of 2009, the Patient Protection and Affordable Care Act of 2010 (the "PPACA"), the Budget Control Act of 2011, and other health reform legislation, or the repeal of all or a portion of any such legislation may cause customers to postpone purchases of our products due to reductions in federal healthcare program reimbursement rates and/or needed changes to their operations in order to meet the requirements of legislation. Our automation solutions often involve a significant financial commitment from our customers and, as a result, our ability to grow our business is largely dependent on our customers' capital and operating budgets. To the extent legislation promotes spending on other initiatives or healthcare providers' spending declines or increases more slowly than we anticipate, demand for our products and services could decline.

For example, some of the provisions of the PPACA have yet to be implemented, and there have been judicial and Congressional challenges to certain aspects of the PPACA, as well as recent efforts by the Trump administration to repeal or replace certain aspects of the PPACA. Since January 2017, President Trump has signed two Executive Orders designed to delay the implementation of certain provisions of the PPACA or otherwise circumvent some of the requirements for health insurance mandated by the PPACA. Concurrently, Congress has considered legislation that would repeal or repeal and replace all or part of the PPACA. While Congress has not passed comprehensive repeal legislation, two bills affecting the implementation of certain taxes under the PPACA have been enacted. The Tax Cuts and Jobs Act of 2017 includes a provision repealing, effective January 1, 2019, the tax-based shared responsibility payment imposed by the PPACA on certain individuals who fail to maintain qualifying health coverage for all or part of a year that is commonly referred to as the "individual mandate." Additionally, on January 22, 2018, President Trump signed a continuing resolution on appropriations for fiscal year 2018 that delayed the implementation of certain fees mandated under the PPACA, including the so-called "Cadillac" tax on certain high

[Table of Contents](#)

cost employer-sponsored insurance plans, the annual fee imposed on certain health insurance providers based on market share, and the medical device excise tax on non-exempt medical devices. Congress may consider other legislation to repeal or replace other elements of the PPACA. Thus, the full impact of the PPACA, or any law replacing elements of it, on our business remains unclear. The implementation of cost containment measures or other healthcare reforms may have an effect on our revenue or profitability.

In addition, healthcare providers have consolidated to create larger healthcare delivery organizations in order to achieve greater market power. If this consolidation continues, it would increase the size of certain target customers, which could increase the cost, effort and difficulty in selling our products to such target customers, or could cause our existing customers or potential new customers to begin utilizing our competitors' products if such customers are acquired by healthcare providers that prefer our competitors' products to ours. In addition, the resulting organizations could have greater bargaining power, which may lead to price erosion.

When we experience delays in installations of our medication and supply dispensing systems or our more complex medication packaging systems, resulting in delays in our ability to recognize revenue, our competitive position, results of operations and financial condition could be harmed.

The purchase of our medication and supply dispensing systems or our more complex medication packaging systems is often part of a customer's larger initiative to re-engineer its pharmacy and their distribution and materials management systems. As a result, our sales cycles are often lengthy. The purchase of our systems often entails larger strategic purchases by customers that frequently require more complex and stringent contractual requirements and generally involve a significant commitment of management attention and resources by prospective customers. These larger and more complex transactions often require the input and approval of many decision-makers, including pharmacy directors, materials managers, nurse managers, financial managers, information systems managers, administrators, lawyers and boards of directors. In addition, new product announcements, such as that of our XT Series, can cause a delay in our customers' decision to purchase our products or convert orders from our older products to those of our newer products, such as the XT Series. For these and other reasons, the sales cycle associated with the sale of our medication and supply dispensing systems is often lengthy and subject to a number of delays over which we have little or no control. A delay in, or loss of, sales of our medication and supply dispensing systems could have an adverse effect upon our operating results and could harm our business.

In addition, and in part as a result of the complexities inherent in larger transactions, the time between the purchase and installation of our systems can range from two weeks to one year. Delays in installation can occur for reasons that are often outside of our control. We have also experienced fluctuations in our customer and transaction size mix, which makes our ability to forecast our product bookings more difficult. Because we recognize revenue for our medication and supply dispensing systems and our more complex medication packaging systems only upon installation at a customer's site, any delay in installation by our customers will also cause a delay in the recognition of the revenue for that system.

Demand for our consumable medication packages is time-sensitive and if we are not able to supply the demand from our institutional and retail pharmacy customers on schedule and with quality packaging products, they may use alternative means to distribute medications to their customers.

Approximately 11% of our revenue is generated from the sale of consumable medication packages, which are produced in our St. Petersburg, Florida facilities on a continuous basis and shipped to our institutional pharmacy and retail pharmacy customers shortly before they are required by these customers. The demands placed on institutional pharmacies and retail pharmacies by their customers represent real time requirements of those customers. Our customer agreements for the sale of consumable medication packages are typically short-term in nature and typically do not include any volume commitments on the part of the customer. Although our packaging may be considered the preferred method of maintaining control of medications during the medication distribution and administration process, institutional and retail pharmacies have alternative methods of distributing medications, including bulk and alternative packaging, and medication adherence packaging may be supplied by our competitors. To the extent that we are unable to supply quality packaging to our customers in a timely manner, that demand will be met via alternative distribution methods, including consumable medication packaging sold by our competitors, and our revenue will decline. Any disruption in the production capabilities of our St. Petersburg facilities will adversely affect our ability to ship our consumable medication packages and would reduce our revenue.

Many of our newer products include software as a service or solution as a service subscriptions. If customer adoption of these products is faster than anticipated, we may experience a temporary reduction of revenues. If these products are unable to meet customer needs, customers may cancel subscriptions.

We currently offer our IV Solutions products and our Central Pharmacy products together with operators as a monthly subscription. We also sell Performance Center, Electronic Medication Administration, and SupplyX as a subscription. IVX Workflow contains a significant subscription element in its pricing structure. If adoption of IV solutions subscription products

[Table of Contents](#)

takes place faster than anticipated, the shift to subscription revenue from capital equipment sales will defer revenue recognition. If any of our subscription products do not substantially meet customer requirements, customers may cancel subscriptions, causing a decline in revenue.

Our international operations may subject us to additional risks that can adversely affect our operating results.*

We currently have operations outside of the United States, including sales efforts centered in Canada, Europe, the Middle East and Asia-Pacific regions and supply chain efforts in Asia. We intend to continue to expand our international operations, particularly in certain markets that we view as strategic, including China and the Middle East. Our international operations subject us to a variety of risks, including:

- our reliance on distributors for the sale and post-sale support of our automated dispensing systems outside the United States and Canada;
- the difficulty of managing an organization operating in various countries;
- political sentiment against international outsourcing of production;
- reduced protection for intellectual property rights, particularly in jurisdictions that have less developed intellectual property regimes;
- changes in foreign regulatory requirements;
- the requirement to comply with a variety of international laws and regulations, including privacy, labor, import, export, trade, environmental standards, product compliance, tax, anti-bribery and employment laws;
- changes in export or import regulations, tariff rates, economic sanctions or trade treaties, as well as possible trade wars and other trade barriers and uncertainties;
- fluctuations in currency exchange rates and difficulties in repatriating funds from certain countries;
- additional investment, coordination and lead-time necessary to successfully interface our automation solutions with the existing information systems of our customers or potential customers outside of the United States; and
- political unrest, terrorism and the potential for other hostilities in areas in which we have facilities or operations.

If we are unable to anticipate and address these risks properly, our business or operating results will be harmed.

Government regulation of the healthcare industry could reduce demand for our products, or substantially increase the cost to produce our products.

The manufacture and sale of most of our current products are not regulated by the U.S. Food and Drug Administration ("FDA"), or the Drug Enforcement Administration ("DEA"). Through our acquisition of Aesynt, we have both a Class I and a Class II, 510(k) exempt medical devices which are subject to FDA regulation and require compliance with the FDA Quality System Regulation as well as medical device reporting. Additional products may be regulated in the future by the FDA, DEA or other federal agencies due to future legislative and regulatory initiatives or reforms. Direct regulation of our business and products by the FDA, DEA or other federal agencies could substantially increase the cost to produce our products and increase the time required to bring those products to market, reduce the demand for our products and reduce our revenues. In addition, healthcare providers and facilities that use our equipment and dispense controlled substances are subject to regulation by the DEA. The failure of these providers and facilities to comply with DEA requirements, including the Controlled Substances Act and its implementing regulations, could reduce demand for our products and harm our competitive position, results of operations and financial condition. Pharmacies are regulated by individual state boards of pharmacy that issue rules for pharmacy licensure in their respective jurisdictions. State boards of pharmacy do not license or approve our medication and supply dispensing systems; however, pharmacies using our equipment are subject to state board approval. The failure of such pharmacies to meet differing requirements from a significant number of state boards of pharmacy could decrease demand for our products and harm our competitive position, results of operations and financial condition. Similarly, hospitals must be accredited by The Joint Commission in order to be eligible for Medicaid and Medicare funds. The Joint Commission does not approve or accredit medication and supply dispensing systems; however, disapproval of our customers' medication and supply dispensing management methods and their failure to meet The Joint Commission requirements could decrease demand for our products and harm our competitive position, results of operations and financial condition.

While we have implemented a Privacy and Use of Information Policy and adhere to established privacy principles, use of customer information guidelines and related federal and state statutes, we cannot assure you that we will be in compliance with all federal and state healthcare information privacy and security laws that we are directly or indirectly subject to,

[Table of Contents](#)

including, without limitation, the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"). Among other things, this legislation required the Secretary of Health and Human Services to adopt national standards governing the conduct of certain electronic health information transactions and protecting the privacy and security of personally identifiable health information maintained or transmitted by "covered entities," which include pharmacies and other healthcare providers with which we do business.

The standards adopted to date include, among others, the "Standards for Privacy of Individually Identifiable Health Information," which restrict the use and disclosure of personally identifiable health information by covered entities, and the "Security Standards," which require covered entities to implement administrative, physical and technical safeguards to protect the integrity and security of certain electronic health information. Under HIPAA, we are considered a "business associate" in relation to many of our customers that are covered entities, and as such, most of these customers have required that we enter into written agreements governing the way we handle and safeguard certain patient health information we may encounter in providing our products and services and may impose liability on us for failure to meet our contractual obligations. Further, pursuant to changes in HIPAA under the American Recovery and Reinvestment Act of 2009, we are covered under HIPAA similar to other covered entities and in some cases, subject to the same civil and criminal penalties as a covered entity. A number of states have also enacted privacy and security statutes and regulations that, in some cases, are more stringent than HIPAA and may also apply directly to us. If our past or present operations are found to violate any of these laws, we may be subject to fines, penalties and other sanctions.

In addition, we cannot predict the potential impact of future HIPAA standards and other federal and state privacy and security laws that may be enacted at any time on our customers or on Omnicell. These laws could restrict the ability of our customers to obtain, use or disseminate patient information, which could reduce the demand for our products or force us to redesign our products in order to meet regulatory requirements.

In the past, we have experienced substantial fluctuations in customer demand, and we cannot be sure that we will be able to respond proactively to future changes in customer demand.

Our ability to adjust to fluctuations in our revenue while still achieving or sustaining profitability is dependent upon our ability to manage costs and control expenses. If our revenue increases or decreases rapidly, we may not be able to manage these changes effectively. Future growth is dependent on the continued demand for our products, the volume of installations we are able to complete, our ability to continue to meet our customers' needs and provide a quality installation experience and our flexibility in manpower allocations among customers to complete installations on a timely basis.

Regarding our expenses, our ability to control expenses is dependent on our ability to continue to develop and leverage effective and efficient human and information technology systems, our ability to gain efficiencies in our workforce through the local and worldwide labor markets and our ability to grow our outsourced vendor supply model. Our expense growth rate may equal or exceed our revenue growth rate if we are unable to streamline our operations, incur significant R&D expenses prior to, or without recognizing the benefits, of those solutions under development, incur acquisition-related integration expenses greater than those we anticipate, or fail to reduce the costs or increase the margins of our products. In addition, we may not be able to reduce our expenses to keep pace with any reduction in our revenue, which could harm our results of operations and financial position.

Covenants in our Credit Agreement restrict our business and operations in many ways and if we do not effectively manage our compliance with these covenants, our financial conditions and results of operations could be adversely affected.

The Credit Agreement contains various customary covenants that limit our ability and/or our subsidiaries' ability to, among other things:

- incur or assume liens or additional debt or provide guarantees in respect of obligations or other persons;
- issue redeemable preferred stock;
- pay dividends or distributions or redeem or repurchase capital stock;
- prepay, redeem or repurchase certain debt;
- make loans, investments, acquisitions (including acquisitions of exclusive licenses) and capital expenditures;
- enter into agreements that restrict distributions from our subsidiaries;
- sell assets and capital stock of our subsidiaries;
- enter into certain transactions with affiliates; and

[Table of Contents](#)

- consolidate or merge with or into, or sell substantially all of our assets to, another person.

The Credit Agreement also includes financial covenants requiring us (i) not to exceed a maximum consolidated total leverage ratio of 3.50:1 through the end of 2018, 3.25:1 through the end of the second quarter of 2019 and 3.00:1 thereafter (subject to certain exceptions) and (ii) to maintain a minimum fixed charge coverage ratio of 1.50:1. Our ability to comply with these financial covenants may be affected by events beyond our control. Our failure to comply with any of the covenants under the Credit Agreement could result in a default under the terms of the Credit Agreement, which could permit the administrative agent or the lenders to declare all or part of any outstanding borrowings to be immediately due and payable, or to refuse to permit additional borrowings under the revolving credit facility, which could restrict our operations, particularly our ability to respond to changes in our business or to take specified actions to take advantage of certain business opportunities that may be presented to us. In addition, if we are unable to repay those amounts, the administrative agent and the lenders under the Credit Agreement could proceed against the collateral granted to them to secure that debt, which would seriously harm our business.

If we are unable to recruit and retain skilled and motivated personnel, our competitive position, results of operations and financial condition could be harmed.

Our success is highly dependent upon the continuing contributions of our key management, sales, technical and engineering staff. We believe that our future success will depend upon our ability to attract, train and retain highly skilled and motivated personnel. As more of our products are installed in increasingly complex environments, greater technical expertise will be required. As our installed base of customers increases, we will also face additional demands on our customer service and support personnel, requiring additional resources to meet these demands. We may experience difficulty in recruiting qualified personnel. Competition for qualified technical, engineering, managerial, sales, marketing, financial reporting and other personnel can be intense and we may not be successful in attracting and retaining qualified personnel. Competitors have in the past attempted, and may in the future attempt, to recruit our employees.

In addition, we have historically used stock options, restricted stock units and other forms of equity compensation as key components of our employee compensation program in order to align employees' interests with the interests of our stockholders, encourage employee retention and provide competitive compensation packages. The effect of managing share-based compensation expense and minimizing shareholder dilution from the issuance of new shares may make it less favorable for us to grant stock options, restricted stock units or other forms of equity compensation, to employees in the future. In order to continue granting equity compensation at competitive levels, we must seek stockholder approval for any increases to the number of shares reserved for issuance under our equity incentive plans, such as the share increase for which we are seeking approval at our 2018 Annual Meeting of Stockholders, and we cannot assure you that we will receive such approvals. Any failure to receive approval for current or future proposed increases could prevent us from granting equity compensation at competitive levels and make it more difficult to attract, retain and motivate employees. Further, to the extent that we expand our business or product lines through the acquisition of other businesses, any failure to receive any such approvals could prevent us from securing employment commitments from such newly acquired employees. Failure to attract and retain key personnel could harm our competitive position, results of operations and financial condition.

If we experience a significant disruption in our information technology systems or breaches of data security, our business could be adversely affected.

We rely on information technology systems to keep financial records and corporate records, communicate with staff and external parties and operate other critical functions, including sales and manufacturing processes. Our information technology systems are potentially vulnerable to disruption due to breakdown, malicious intrusion and computer viruses or environmental impact. If we were to experience a prolonged system disruption in our information technology systems, it could negatively impact the coordination of our sales, planning and manufacturing activities, which could adversely affect our business. In addition, in order to maximize our information technology efficiency, we have physically consolidated our primary corporate data and computer operations. This concentration, however, exposes us to a greater risk of disruption to our internal information technology systems. Although we maintain offsite back-ups of our data, if operations at our facilities were disrupted, it may cause a material disruption in our business if we are not capable of restoring function on an acceptable time frame.

In addition, our information technology systems are potentially vulnerable to cyber-attacks or other data security breaches-whether by employees or others-which may expose sensitive data to unauthorized persons. Such data security breaches could lead to the loss of trade secrets or other intellectual property, or could lead to the public exposure of sensitive and confidential information of our employees, customers, suppliers and others, any of which could have a material adverse effect on our business, financial condition and results of operations. Moreover, a security breach or privacy violation that leads

[Table of Contents](#)

to disclosure or modification of, or prevents access to, patient information, including personally identifiable information or protected health information, could harm our reputation, result in litigation, compel us to comply with federal and/or state breach notification laws, subject us to mandatory corrective action, require us to verify the correctness of database contents and otherwise subject us to liability under laws and regulations that protect personal data, resulting in increased costs or loss of revenue.

While we have implemented a number of protective measures, including firewalls, antivirus and malware detection tools, patches, log monitors, routine back-ups, system audits, routine password modifications and disaster recovery procedures, such measures may not be adequate or implemented properly to prevent or fully address the adverse effect of such events, and in some cases we may be unaware of an incident or its magnitude and effects. If we are unable to prevent such security breaches or privacy violations or implement satisfactory remedial measures, our operations could be disrupted, and we may suffer loss of reputation, financial loss and other regulatory penalties because of lost or misappropriated information, including sensitive patient data. In addition, these breaches and other inappropriate access can be difficult to detect, and any delay in identifying them may lead to increased harm of the type described above.

If we are unable to successfully interface our automation solutions with the existing information systems of our customers, they may choose not to use our products and services.

For healthcare facilities to fully benefit from our automation solutions, our systems must interface with their existing information systems. This may require substantial cooperation, incremental investment and coordination on the part of our customers and may require coordination with third-party suppliers of the existing information systems. There is little uniformity in the systems currently used by our customers, which complicates the interfacing process. If these systems are not successfully interfaced, our customers could choose not to use or to reduce their use of our automation solutions, which would harm our business. Also, these information systems are impacted by regulatory forces, such as the HITECH Act, Meaningful Use Stages, and HIPAA Omnibus Rules, and may evolve their interoperability functionality accordingly. We expect to comply with the mandatory standards and certifications that enable us to continuously interoperate with partner information systems, but such symbiotic evolution in a changing regulatory environment can at times create an execution risk.

Additionally, our competitors may enter into agreements with providers of hospital information management systems that are designed to increase the interoperability of their respective products. To the extent our competitors are able to increase the interoperability of their products with those of the major hospital information systems providers, customers who utilize such information systems may choose not to use our products and services. In addition, hospital information systems providers may choose to develop their own solutions that could compete with ours. Furthermore, we expect the importance of interoperability to increase in the next few years. Regulations such as the HITECH Act Meaningful Use Stage 3 are expected to heavily focus on evidence and outcomes. Given our role in care delivery process, the data generated by our products may be a key input for assessing and reporting on clinical outcomes. This may elevate interoperability with information systems to a relative importance to our customers creating a business opportunity and risk.

Our failure to protect our intellectual property rights could negatively affect our ability to compete.

Our success depends in part on our ability to obtain patent protection for technology and processes and our ability to preserve our trademarks, copyrights and trade secrets. We have pursued patent protection in the United States and foreign jurisdictions for technology that we believe to be proprietary and for technology that offers us a potential competitive advantage for our products. We intend to continue to pursue such protection in the future. Our issued patents relate to various features of our medication and supply dispensing systems and our packaging systems. We cannot assure you that we will file any patent applications in the future, and that any of our patent applications will result in issued patents or that, if issued, such patents will provide significant protection for our technology and processes. As an example, in September 2014, an action was brought against us, to, among other matters, correct the inventorship of certain patents owned by us. Furthermore, we cannot assure you that others will not develop technologies that are similar or superior to our technology or that others will not design around the patents we own. All of our system software is copyrighted and subject to the protection of applicable copyright laws. Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to copy aspects of our products or obtain and use information that we regard as proprietary, which could harm our competitive position.

Our quarterly operating results may fluctuate and may cause our stock price to decline.

Our quarterly operating results may vary in the future depending on many factors that include, but are not limited to, the following:

- our ability to successfully install our products on a timely basis and meet other contractual obligations necessary to recognize revenue;
- our ability to continue cost reduction efforts;

[Table of Contents](#)

- our ability to implement development and manufacturing Centers of Excellence;
- the size, product mix and timing of orders for our medication and supply dispensing systems, and our medication packaging systems, and their installation and integration;
- the overall demand for healthcare medication management and supply chain solutions;
- changes in pricing policies by us or our competitors;
- the number, timing and significance of product enhancements and new product announcements by us or our competitors;
- the timing and significance of any acquisition or business development transactions that we may consider or negotiate and the revenues, costs and earnings that may be associated with these transactions;
- the relative proportions of revenues we derive from products and services;
- fluctuations in the percentage of sales attributable to our international business;
- our customers' budget cycles;
- changes in our operating expenses and our ability to stabilize expenses;
- expenses incurred to remediate product quality or safety issues;
- our ability to generate cash from our accounts receivable on a timely basis;
- the performance of our products;
- changes in our business strategy;
- macroeconomic and political conditions, including fluctuations in interest rates, tax increases and availability of credit markets; and
- volatility in our stock price and its effect on equity-based compensation expense.

Due to all of these factors, our quarterly revenues and operating results are difficult to predict and may fluctuate, which in turn may cause the market price of our stock to decline.

If we are unable to maintain our relationships with group purchasing organizations or other similar organizations, we may have difficulty selling our products and services to customers represented by these organizations.

A number of group purchasing organizations, including Intalere (f.k.a. Amerinet, Inc.), Vizient Inc, Premier Inc., HealthTrust Purchasing Group, The Resource Group, and Resource Optimization & Innovation, LLC have negotiated standard contracts for our products on behalf of their member healthcare organizations. Members of these group purchasing organizations may purchase under the terms of these contracts, which obligate us to pay the group purchasing organization a fee. We have also contracted with the United States General Services Administration, allowing the Department of Veteran Affairs, the Department of Defense and other Federal Government customers to purchase our products. These contracts enable us to more readily sell our products and services to customers represented by these organizations. Some of our contracts with these organizations are terminable at the convenience of either party. The loss of any of these relationships could impact the breadth of our customer base and could impair our ability to meet our revenue targets or increase our revenues. These organizations may not renew our contracts on similar terms, if at all, and they may choose to terminate our contracts before they expire, any of which could cause our revenues to decline.

If we are unable to maintain our relationships with major institutional pharmacies, we may experience a decline in the sales of blister cards and other consumables sold to these customers.

The institutional pharmacy market consists of significant national suppliers of medications to non-acute care facilities, smaller regional suppliers, and very small local suppliers. Although none of these customers comprised more than 10% of our total revenues for the year ended December 31, 2017, the three largest institutional pharmacies have comprised 11% and 14% of our Medication Adherence segment revenues during the three months ended March 31, 2018 and 2017, respectively. If these larger national suppliers were to purchase consumable blister card components from alternative sources, or if alternatives to blister cards were used for medication control, our revenues would decline.

We depend on a limited number of suppliers for our products and our business may suffer if we were required to change suppliers to obtain an adequate supply of components, equipment and raw materials on a timely basis.

[Table of Contents](#)

Although we generally use parts and components for our products with a high degree of modularity, certain components are presently available only from a single source or limited sources. We rely on a limited number of suppliers for the raw materials that are necessary in the production of our consumable medication packages. While we have generally been able to obtain adequate supplies of all components and raw materials in a timely manner from existing sources, or where necessary, from alternative sources of supply, we have entered into relationships with new suppliers in connection with the launch of our XT Series products. We engage multiple single source third-party manufacturers to build several of our sub-assemblies. The risks associated with changing to alternative vendors, if necessary, for any of the numerous components used to manufacture our products could limit our ability to manufacture our products and harm our business. Due to our reliance on a few single source partners to build our hardware sub-assemblies and on a limited number of suppliers for the raw materials that are necessary in the production of our consumable medication packages, a reduction or interruption in supply from our partners or suppliers, or a significant increase in the price of one or more components could have an adverse impact on our business, operating results and financial condition. In certain circumstances, the failure of any of our suppliers or us to perform adequately could result in quality control issues affecting end users' acceptance of our products. These impacts could damage customer relationships and could harm our business.

Our failure to maintain effective internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 could cause our stock price to decline.

Section 404 of the Sarbanes-Oxley Act of 2002 and the related rules and regulations of the Securities and Exchange Commission ("SEC") require annual management assessments of the effectiveness of our internal control over financial reporting and a report by our independent registered public accounting firm attesting to the effectiveness of internal control. If we fail to maintain effective internal control over financial reporting, as such standards are modified, supplemented or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal control over financial reporting.

If the market price of our common stock continues to be highly volatile, the investment value of our common stock may decline.*

Our common stock traded between \$39.75 and \$52.65 per share during the three months ended March 31, 2018. The market price for shares of our common stock has been and may continue to be highly volatile. In addition, our announcements or external events may have a significant impact on the market price of our common stock. These announcements or external events may include:

- actual or anticipated changes in our operating results;
- whether our operating results or forecasts meet the expectations of securities analysts or investors;
- developments in our relationships with corporate customers;
- developments with respect to recently acquired businesses;
- changes in the ratings of our common stock by securities analysts or changes in their earnings estimates;
- announcements by us or our competitors of technological innovations or new products;
- announcements by us or our competitors of acquisitions of businesses, products or technologies; or other significant transactions by us or our competitors such as strategic partnerships or divestitures; or
- general economic and market conditions.

Furthermore, the stock market as a whole from time to time has experienced extreme price and volume fluctuations, which have particularly affected the market prices for technology companies. These broad market fluctuations may cause the market price of our common stock to decline irrespective of our performance. In addition, sales of substantial amounts of our common stock in the public market could lower the market price of our common stock.

In addition, stockholders have initiated class action lawsuits against companies following periods of volatility in the market prices of these companies' stock. For example, on March 19, 2015, a putative class action lawsuit was filed against Omnicell and two of our executive officers in the U.S. District Court for the Northern District of California purporting to assert claims on behalf of a class of purchasers of Omnicell stock between May 2, 2014 and March 2, 2015. The complaint alleged that defendants violated Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 by purportedly making false and misleading statements regarding the existence of a "side letter" arrangement and the adequacy of internal controls that allegedly resulted in false and misleading financial statements. The Company and the individual defendants were not served with the complaint and on May 20, 2015, the plaintiff filed a notice of voluntary dismissal of the lawsuit without prejudice.

Our U.S. government lease agreements are subject to annual budget funding cycles and mandated unilateral changes, which may affect our ability to enter into such leases or to recognize revenue and sell receivables based on these leases.

U.S. government customers that lease our equipment typically sign contracts with five-year payment terms that are subject to one-year government budget funding cycles. Further, the government has in certain circumstances mandated unilateral changes in its Federal Supply Services contract that could render our lease terms with the government less attractive. In our judgment and based on our history with these accounts, we believe these receivables are collectible. However, in the future, the failure of any of our U.S. government customers to receive their annual funding, or the government mandating changes to the Federal Supply Services contract could impair our ability to sell lease equipment to these customers or to sell our U.S. government receivables to third-party leasing companies. In addition, the ability to collect payments on unsold receivables could be impaired and may result in a write-down of our unsold receivables from U.S. government customers. The balance of our unsold leases to U.S. government customers was \$10.8 million as of March 31, 2018.

If we fail to manage our inventory properly, our revenue, gross margin and profitability could suffer.

Managing our inventory of components and finished products is a complex task. A number of factors, including, but not limited to, the need to maintain a significant inventory of certain components that are in short supply or that must be purchased in bulk to obtain favorable pricing, the general unpredictability of demand for specific products and customer requests for quick delivery schedules, may result in us maintaining large amounts of inventory. Other factors, including changes in market demand, customer requirements and technology, may cause our inventory to become obsolete. Any excess or obsolete inventory could result in inventory write-downs, which in turn could harm our business and results of operations.

Intellectual property claims against us could harm our competitive position, results of operations and financial condition.

We expect that developers of medication and supply dispensing systems and medication packaging systems, will be increasingly subject to infringement claims as the number of products and competitors in our industry grows and the functionality of products in different industry segments overlaps. In the future, third parties may claim that we have infringed upon their intellectual property rights with respect to current or future products. We do not carry special insurance that covers intellectual property infringement claims; however, such claims may be covered under our traditional insurance policies. These policies contain terms, conditions and exclusions that make recovery for intellectual property infringement claims difficult to guarantee. Any infringement claims, with or without merit, could be time-consuming to defend, result in costly litigation, divert management's attention and resources, cause product shipment delays or require us to enter into royalty or licensing agreements. These royalty or licensing agreements, if required, may not be available on terms acceptable to us, or at all, which could harm our competitive position, results of operations and financial condition.

Our software products are complex and may contain defects, which could harm our reputation, results of operations and financial condition.

We market products that contain software and products that are software only. Although we perform extensive testing prior to releasing software products, these products may contain undetected errors or bugs when first released. These may not be discovered until the product has been used by customers in different application environments. Failure to discover product deficiencies or bugs could require design modifications to previously shipped products or cause delays in the installation of our products and unfavorable publicity or negatively impact system shipments, any of which could harm our business, financial condition and results of operations.

Product liability claims against us could harm our competitive position, results of operations and financial condition.*

Our products provide medication management and supply chain management solutions for the healthcare industry. Despite the presence of healthcare professionals as intermediaries between our products and patients, if our products fail to provide accurate and timely information or operate as designed, customers, patients or their family members could assert claims against us for product liability. For example, as further discussed under "Legal Proceedings" in Note 10, Commitments and Contingencies, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report, on January 10, 2018, a lawsuit was filed against a number of parties, including the Company and one of its subsidiaries, in the Circuit Court for the City of Richmond, Virginia, asserting, among other allegations, claims of product liability. Moreover, failure of health care facility employees to use our products for their intended purposes could result in product liability claims against us. Litigation with respect to product liability claims, regardless of any outcome, could result in substantial cost to us, divert management's attention from operations and decrease market acceptance of our products. We possess a variety of insurance policies that include coverage for general commercial liability and technology errors and omissions liability. We attempt to mitigate these risks through contractual terms negotiated with our customers. However, these policies and protective contractual terms may not be adequate against product liability claims. A successful claim brought against us, or any claim or product recall that results in negative publicity about us, could harm our competitive position, results of operations and

financial condition. Also, in the event that any of our products is defective, we may be required to recall or redesign those products.

We are dependent on technologies provided by third-party vendors, the loss of which could negatively and materially affect our ability to market, sell, or distribute our products.

Some of our products incorporate technologies owned by third parties that are licensed to us for use, modification, and distribution. For example, the VBM 200F is manufactured by a third party and sold by us pursuant to a distribution and supplier agreement. If we lose access to third-party technologies, such as our ability to distribute the VBM 200F, or we lose the ongoing rights to modify and distribute these technologies with our products, we will have to devote resources to independently develop, maintain and support the technologies ourselves, pay increased license costs, or transition to another vendor. Any independent development, maintenance or support of these technologies by us or the transition to alternative technologies could be costly, time consuming and could delay our product releases and upgrade schedules. These factors could negatively and materially affect our ability to market, sell or distribute our products.

Complications in connection with our ongoing business information system upgrades, including those required to transition acquired entities onto information systems already utilized, and those implemented to adopt new accounting standards, may impact our results of operations, financial condition and cash flows.

We continue to upgrade our enterprise-level business information system with new capabilities and transition acquired entities onto information systems already utilized in the company. In 2015, we replaced legacy Enterprise Requirements Planning systems used in the acquired Surgichem business with systems currently in use in other parts of Omnicell. In 2016, we replaced the legacy Enterprise Requirements Planning systems used in Mach4 with systems currently in use in other parts of Omnicell, and we intend to do the same at Aesynt and Ateb. Based upon the complexity of some of the upgrades, there is risk that we will not see the expected benefit from the implementation of these upgrades in accordance with their anticipated timeline and will incur costs in addition to those we have already planned for. In addition, in future years, we will need to comply with new accounting standards established by the Financial Accounting Standards Board ("FASB") for leases and other components of our financial reporting. These new standards will require us to modify our accounting policies and financial reporting disclosure. We further anticipate that integration of these and possibly other new standards may require a substantial amount of management's time and attention and require integration with our enterprise resource planning system. The implementation of the system and the adoption of future new standards, in isolation as well as together, could result in operating inefficiencies and financial reporting delays, and could impact our ability to timely record certain business transactions. All of these potential results could adversely impact our results of operations, financial condition and cash flows.

Outstanding employee stock options have the potential to dilute stockholder value and cause our stock price to decline.

We grant stock options to certain of our employees as incentives to join Omnicell or as an on-going reward and retention vehicle. We had options outstanding to purchase approximately 3.7 million shares of our common stock, at a weighted-average exercise price of \$34.45 per share as of March 31, 2018. If some or all of these shares are sold into the public market over a short time period, the price of our common stock may decline, as the market may not be able to absorb those shares at the prevailing market prices. Such sales may also make it more difficult for us to sell equity securities in the future on terms that we deem acceptable.

Raising additional capital may cause dilution to our existing stockholders, restrict our operations or harm our business, financial condition and results of operations.

We may seek additional capital through a variety of means, including through private and public equity offerings and debt financings. To the extent that we raise additional capital through the sale of equity or convertible debt securities, the ownership interest will be diluted, and the terms may include liquidation or other preferences that adversely affect the rights as a stockholder. Debt financing, if available, may involve agreements that include covenants limiting or restricting our ability to take certain actions, such as incurring additional debt, making capital expenditures, entering into licensing arrangements, or declaring dividends. If we raise additional funds from third parties, we may have to relinquish valuable rights to our technologies, or grant licenses on terms that are not favorable to us.

For example, we filed a "shelf" registration statement on Form S-3 under the Securities Act in November 2017 (the "S-3 Registration Statement"), allowing us, from time to time, to offer any combination of registered common stock, preferred stock, debt securities and warrants. Under this S-3 Registration Statement, we also entered into a distribution agreement (the "Distribution Agreement") in November 2017 with J.P. Morgan Securities, LLC, Wells Fargo Securities, LLC and HSBC Securities (USA) Inc. (collectively, the "Sales Agents") pursuant to which we may offer and sell from time to time through "at-the-market" offerings, up to an aggregate of \$125.0 million of our common stock through the Sales Agents. As of March 31, 2018, we had an aggregate of \$110.3 million available to be offered under the Distribution Agreement.

If we are unable to raise additional funds through equity or debt financing when needed, our ability to market, sell or distribute our products may be negatively impacted and could harm our business, financial condition and results of operations.

Changes in our tax rates, exposure to additional tax liabilities, or the adoption of new tax legislation, including the recently passed comprehensive tax reform bill, could adversely affect our business and financial condition.

We are subject to taxes in the United States and foreign jurisdictions. Our future effective tax rates could be affected by several factors, many of which are outside of our control, including: changes in the mix of earnings with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, or changes in tax laws or their interpretation. We regularly assess the likelihood of adverse outcomes to determine the adequacy of our provision for taxes. We are also subject to examination of our income tax returns by the Internal Revenue Service and other tax authorities. There can be no assurance that the outcomes from these examinations will not materially adversely affect our financial condition and operating results.

For example, on December 22, 2017, the Tax Cuts and Jobs Act (the "Tax Act") was signed into law. The Tax Act, among other things, changed many aspects of U.S. corporate income taxation, and included reduction of the corporate income tax rate from 35% to 21%, implementation of a territorial tax system, imposition of a tax on deemed repatriated earnings of foreign subsidiaries, changes in the treatment of offshore earnings, limitation of the tax deduction for interest expense, revision of net operating loss carryforward and utilization rules, further deduction limits on executive compensation, and modifying, repealing and creating many other business deductions and credits. While certain expected impacts of the Tax Act on our business are discussed in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as Note 11, Income Taxes, of the Notes to the Condensed Consolidated Financial Statements, we continue to examine the impact this tax reform legislation may have on our business. Notwithstanding the reduction in the corporate income tax rate, the overall impact of the Tax Act is uncertain and our business and financial condition could be adversely affected. The impact of the Tax Act on holders of our common stock is also uncertain and could be adverse. This quarterly report does not discuss any such tax legislation or the manner in which it might affect us or our stockholders in the future. We urge our stockholders to consult with their legal and tax advisors with respect to such legislation.

Catastrophic events may disrupt our business and harm our operating results.

We rely on our network infrastructure, data centers, enterprise applications, and technology systems for the development, marketing, support and sales of our products, and for the internal operation of our business. These systems are susceptible to disruption or failure in the event of a major earthquake, fire, flood, cyber-attack, terrorist attack, telecommunications failure, or other catastrophic event. Many of these systems are housed or supported in or around our corporate headquarters located in Northern California, near major earthquake faults, and where a significant portion of our research and development activities and other critical business operations take place. Other critical systems, including our manufacturing facilities for our consumable medication packages, are housed in St. Petersburg, Florida, in communities that have been subject to significant tropical storms. Disruptions to or the failure of any of these systems, and the resulting loss of critical data, which is not quickly recoverable by the effective execution of disaster recovery plans designed to reduce such disruption, could cause delays in our product development, prevent us from fulfilling our customers' orders, and could severely affect our ability to conduct normal business operations, the result of which would adversely affect our operating results.

Recent developments relating to the United Kingdom's referendum vote in favor of leaving the European Union and related actions could adversely affect us.

The United Kingdom held a referendum on June 23, 2016 in which a majority voted for the United Kingdom's (the "UK") withdrawal from the European Union (the "EU"). On March 29, 2017, the UK's ambassador to the EU delivered a letter to the president of the European Council that gave formal notice under Article 50 of the Lisbon Treaty of Britain's withdrawal from the EU, commonly referred to as "Brexit". As a result, negotiations have commenced to determine the terms of the UK's withdrawal from the EU as well as its relationship with the EU going forward, including the terms of trade between the UK and the EU. The effects of Brexit have been and are expected to continue to be far-reaching. Brexit and the perceptions as to its impact may adversely affect business activity and economic conditions in Europe and globally and could continue to contribute to instability in global financial markets. Brexit could also have the effect of disrupting the free movement of goods, services and people between the UK and the EU. However, the full effects of Brexit are uncertain and will depend on any agreements the UK may make to retain access to EU markets. Brexit could also lead to legal uncertainty and potentially divergent national laws and regulations as the UK determines which EU laws to replace or replicate. Lastly, as a result of the Brexit, other European countries may seek to conduct referenda with respect to their continuing membership with the EU. Given these possibilities and others we may not anticipate, as well as the lack of comparable precedent, the full extent to which our business, results of operations and financial condition could be adversely affected by Brexit is uncertain.

The conflict minerals provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act could result in additional costs and liabilities.

[Table of Contents](#)

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, the SEC established disclosure and reporting requirements for those companies that use "conflict minerals" mined from the Democratic Republic of Congo and adjoining countries, whether or not these products are manufactured by third parties. These new requirements could affect the sourcing of materials used in our products as well as the companies we use to manufacture our products. In circumstances where conflict minerals in our products are found to be sourced from the Democratic Republic of the Congo or surrounding countries, we may take actions to change materials or designs to reduce the possibility that our purchase of conflict minerals may fund armed groups in the region. These actions could add engineering and other costs to the manufacture of our products.

We expect to incur costs on an ongoing basis to comply with the requirements related to the discovery of the origin of the tantalum, tin, tungsten and gold used in our products, including components we purchase from third parties, and to audit our conflict minerals disclosures. Our reputation may also suffer if we have included conflict minerals originating in the Democratic Republic of the Congo or surrounding countries in our products.

Anti-takeover provisions in our charter documents and under Delaware law, and any stockholders' rights plan we may adopt in the future, make an acquisition of us, which may be beneficial to our stockholders, more difficult.

We are incorporated in Delaware. Certain anti-takeover provisions of Delaware law and our charter documents as currently in effect may make a change in control of our company more difficult, even if a change in control would be beneficial to the stockholders. Our anti-takeover provisions include provisions in our certificate of incorporation providing that stockholders' meetings may only be called by our Board of Directors and provisions in our bylaws providing that the stockholders may not take action by written consent and requiring that stockholders that desire to nominate any person for election to our Board of Directors or to make any proposal with respect to business to be conducted at a meeting of our stockholders be submitted in appropriate form to our Secretary within a specified period of time in advance of any such meeting. Delaware law also prohibits corporations from engaging in a business combination with any holders of 15% or more of their capital stock until the holder has held the stock for three years unless, among other possibilities, our Board of Directors approves the transaction. Our Board of Directors may use these provisions to prevent changes in the management and control of our company. Also, under applicable Delaware law, our board of directors may adopt additional anti-takeover measures in the future.

The stockholder rights plan adopted by our Board of Directors in February 2003 expired by its terms in February 2013. Our Board of Directors could adopt a similar plan in the future if it determines that such action is in the best interests of our stockholders. Such a plan may have the effect of discouraging, delaying or preventing a change in control of our company that may be beneficial to our stockholders.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Stock Repurchase Programs

During the three months ended March 31, 2018, we did not repurchase any shares of our common stock under our stock repurchase programs. Please refer to Note 12, Employee Benefits and Share-Based Compensation, of the Notes to the Condensed Consolidated Financial Statements included in this quarterly report for more details.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

On May 1, 2018, our Board of Directors approved the amendment and restatement of our bylaws, effective May 1, 2018, to effect the following changes:

- Provide our Board of Directors with the flexibility to hold virtual meetings of stockholders, as permitted by the General Corporation Law of the State of Delaware (the "DGCL");
- Expressly permit members of our Board of Directors to consent to action taken without a meeting by way of electronic transmission, and provide for the filing of such consents electronically if the minutes are maintained in electronic form, as permitted by the DGCL;

[Table of Contents](#)

- Expressly permit electronic transmission of notices to our stockholders, notices of Board of Directors or committee meetings, waivers of notice for stockholder, Board of Directors and committee meetings, and resignations of directors and officers, as and to the extent permitted by the DGCL;
- Permit electronic accessibility of stockholder lists in connection with meetings of stockholders;
- Remove the requirement to hold an annual Board of Directors meeting immediately before or after the annual meeting of stockholders to provide our Board of Directors with increased flexibility to schedule meetings;
- Clarify that the advance notice provisions of the bylaws (i) are the exclusive means for a stockholder to make nominations and submit business before an annual meeting of stockholders (other than matters properly included in the Company's notice to stockholders of such meeting and proxy statement under Rule 14a-8 of the Exchange Act, and (ii) shall not be deemed to affect the right of stockholders to submit proposals pursuant to and in compliance with Rule 14a-8 of the Exchange Act;
- Remove certain legacy provisions of the bylaws that are no longer applicable to the Company as a public company; and
- Make certain other minor conforming or administrative changes intended to clarify, update and modernize our bylaws.

The foregoing description is qualified in its entirety by reference to the full text of the Company's Amended and Restated Bylaws, a copy of which is attached as Exhibit 3.4 to this quarterly report and incorporated herein by reference.

ITEM 6. EXHIBITS

The information required by this Item is set forth in the Exhibit Index that follows the signature page of this Report.

AMENDED AND RESTATED BYLAWS

OF

OMNICELL, INC.

(A DELAWARE CORPORATION)

ARTICLE I

OFFICES

Section 1. Registered Office. The registered office of the corporation in the State of Delaware shall be in the City of Wilmington, County of New Castle.

Section 2. Other Offices. The corporation shall also have and maintain an office or principal place of business at such place as may be fixed by the Board of Directors, and may also have offices at such other places, both within and without the State of Delaware as the Board of Directors may from time to time determine or the business of the corporation may require.

ARTICLE II

CORPORATE SEAL

Section 3. Corporate Seal . The corporate seal shall consist of a die bearing the name of the corporation and the inscription, "Corporate Seal-Delaware." Said seal may be used by causing it or a facsimile thereof to be impressed or affixed or reproduced or otherwise.

ARTICLE III

STOCKHOLDERS' MEETINGS

Section 4. Place of Meetings. Meetings of the stockholders of the corporation shall be held at such place, either within or without the State of Delaware, as may be determined from time to time by the Board of Directors. The Board of Directors may, in its sole discretion, determine that the meeting shall not be held at any place, but may instead be held solely by means of remote communication as provided under the Delaware General Corporation Law ("DGCL").

Section 5. Annual Meetings.

(a) The annual meeting of the stockholders of the corporation, for the purpose of election of directors and for such other business as may lawfully come before it, shall be held on such date and at such time as may be designated from time to time by the Board of Directors. Nominations of persons for election to the Board of Directors of the corporation and the proposal of business to be considered by the stockholders may be made at an annual meeting of stockholders: (i) pursuant to the corporation's notice of

meeting of stockholders (with respect to business other than nominations); (ii) by or at the direction of the Board of Directors; or (iii) by any stockholder of the corporation who was a stockholder of record at the time of giving of notice provided for in the following paragraph, who is entitled to vote at the meeting and who complied with the notice procedures set forth in Section 5. For the avoidance of doubt, clause (iii) above shall be the exclusive means for a stockholder to make nominations and submit other business (other than matters properly included in the corporation's notice of meeting of stockholders and proxy statement under Rule 14a-8 under the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder (the "1934 Act")) before an annual meeting of stockholders.

(b) At an annual meeting of the stockholders, only such business shall be conducted as shall have been properly brought before the meeting. For nominations or other business to be properly brought before an annual meeting by a stockholder pursuant to clause (iii) of Section 5(a) of these Bylaws, (i) the stockholder must have given timely notice thereof in writing to the Secretary of the corporation, (ii) such other business must be a proper matter for stockholder action under the DGCL, (iii) if the stockholder, or the beneficial owner on whose behalf any such proposal or nomination is made, has provided the corporation with a Solicitation Notice (as defined in this Section 5(b)), such stockholder or beneficial owner must, in the case of a proposal, have delivered a proxy statement and form of proxy to holders of at least the percentage of the corporation's voting shares required under applicable law to carry any such proposal, or, in the case of a nomination or nominations, have delivered a proxy statement and form of proxy to holders of a percentage of the corporation's voting shares reasonably believed by such stockholder or beneficial owner to be sufficient to elect the nominee or nominees proposed to be nominated by such stockholder, and must, in either case, have included in such materials the Solicitation Notice, and (iv) if no Solicitation Notice relating thereto has been timely provided pursuant to this section, the stockholder or beneficial owner proposing such business or nomination must not have solicited a number of proxies sufficient to have required the delivery of such a Solicitation Notice under this Section 5. To be timely, a stockholder's notice shall be delivered to the Secretary at the principal executive offices of the Corporation not later than the close of business on the ninetieth (90th) day nor earlier than the close of business on the one hundred twentieth (120th) day prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is advanced more than thirty (30) days prior to or delayed by more than thirty (30) days after the anniversary of the preceding year's annual meeting, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the one hundred twentieth (120th) day prior to such annual meeting and not later than the close of business on the later of the ninetieth (90th) day prior to such annual meeting or the tenth (10th) day following the day on which public announcement of the date of such meeting is first made. In no event shall an adjournment or a postponement of an annual meeting, or the public announcement thereof, commence a new time period for the giving of a stockholder's notice as described above. Such stockholder's notice shall set forth: (A) as to each person whom the stockholder proposed to nominate for election or reelection as a director all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (the "1934 Act") (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); (B) as to any other business that the stockholder proposes to bring before the meeting, a brief description of the business desired to be brought before the meeting, the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made; and (C) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made (i) the name and address of such stockholder, as they appear on the corporation's books, and of such beneficial owner, (ii) the class and number of shares of the corporation which are owned beneficially and of record by such stockholder and such beneficial owner, and (iii) whether either such stockholder or beneficial owner intends to deliver a proxy statement and form of proxy to holders of, in the case of the proposal, at

least the percentage of the corporation's voting shares required under applicable law to carry the proposal or, in the case of a nomination or nominations, a sufficient number of holders of the corporation's voting shares to elect such nominee or nominees (an affirmative statement of such intent, a "Solicitation Notice").

(c) Notwithstanding anything in the second sentence of Section 5(b) of these Bylaws to the contrary, in the event that the number of directors in an Expiring Class is increased and there is no public announcement of the appointment of a director to such class, or, if no appointment was made, of the vacancy in such class, made by the corporation at least one hundred (100) days prior to the first anniversary of the preceding year's annual meeting, a stockholder's notice required by this Section 5 shall also be considered timely, but only with respect to nominees for any new positions in such Expiring Class created by such increase, if it shall be delivered to the Secretary at the principal executive offices of the corporation not later than the close of business on the tenth (10th) day following the day on which such public announcement is first made by the corporation. For purposes of this section, an "Expiring Class" shall mean a class of directors whose term shall expire at the next annual meeting of stockholders.

(d) Only such persons who are nominated in accordance with the procedures set forth in this Section 5 shall be eligible to serve as directors and only such business shall be conducted at a meeting of stockholders as shall have been brought before the meeting in accordance with the procedures set forth in this Section 5. Except as otherwise provided by law, the Chairman of the meeting shall have the power and duty to determine whether a nomination or any business proposed to be brought before the meeting was made, or proposed, as the case may be, in accordance with the procedures set forth in these Bylaws and, if any proposed nomination or business is not in compliance with these Bylaws, to declare that such defective proposal or nomination shall not be presented for stockholder action at the meeting and shall be disregarded, notwithstanding that proxies in respect of such nominations or such business may have been solicited or received.

(e) Notwithstanding the foregoing provisions of this Section 5, in order to include information with respect to a stockholder proposal in the proxy statement and form of proxy for a stockholders' meeting, a stockholder must comply with all applicable requirements of the 1934 Act and the rules and regulations thereunder. Nothing in these Bylaws shall be deemed to affect any rights of stockholders to request inclusion of proposals in the corporation proxy statement pursuant to Rule 14a-8 under the 1934 Act; *provided, however*, that any references in these Bylaws to the 1934 Act or the rules and regulations thereunder are not intended to and shall not limit the requirements applicable to proposals and/or nominations to be considered pursuant to Section 5(a)(iii) of these Bylaws.

(f) For purposes of this Section 5, "public announcement" shall mean disclosure in a press release reported by the Dow Jones News Service, Associated Press or comparable national news service or in a document publicly filed by the corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the 1934 Act.

Section 6. Special Meetings.

(a) Special meetings of the stockholders of the corporation may be called, for any purpose or purposes, by (i) the Chairman of the Board of Directors, (ii) the Chief Executive Officer, or (iii) the Board of Directors pursuant to a resolution adopted by a majority of the total number of authorized directors (whether or not there exist any vacancies in previously authorized directorships at the time any such resolution is presented to the Board of Directors for adoption).

(b) If a special meeting is properly called by any person or persons other than the Board of Directors, the request shall be in writing, specifying the general nature of the business proposed to be transacted, and shall be delivered personally or sent by registered mail or by telegraphic or other facsimile transmission to the Chairman of the Board of Directors, the Chief Executive Officer, or the Secretary of the corporation. No business may be transacted at such special meeting otherwise than specified in such notice. The Board of Directors shall determine the time and place of such special meeting, which shall be held not less than thirty-five (35) nor more than one hundred twenty (120) days after the date of the receipt of the request. Upon determination of the time and place of the meeting, the officer receiving the request shall cause notice to be given to the stockholders entitled to vote, in accordance with the provisions of Section 7 of these Bylaws. If the notice is not given within one hundred (100) days after the receipt of the request, the person or persons properly requesting the meeting may set the time and place of the meeting and give the notice. Nothing contained in this paragraph (b) shall be construed as limiting, fixing, or affecting the time when a meeting of stockholders called by action of the Board of Directors may be held.

(c) Nominations of persons for election to the Board of Directors may be made at a special meeting of stockholders at which directors are to be elected pursuant to the corporation's notice of meeting (i) by or at the direction of the Board of Directors or (ii) by any stockholder of the corporation who is a stockholder of record at the time of giving notice provided for in these Bylaws who shall be entitled to vote at the meeting and who complies with the notice procedures set forth in this Section 6(c). In the event the corporation calls a special meeting of stockholders for the purpose of electing one or more directors to the Board of Directors, any such stockholder may nominate a person or persons (as the case may be), for election to such position(s) as specified in the corporation's notice of meeting, if the stockholder's notice required by Section 5(b) of these Bylaws shall be delivered to the Secretary at the principal executive offices of the corporation not earlier than the close of business on the one hundred twentieth (120th) day prior to such special meeting and not later than the close of business on the later of the ninetieth (90th) day prior to such meeting or the tenth (10th) day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors to be elected at such meeting. In no event shall an adjournment or a postponement of a special meeting for which notice had been given, or the public announcement thereof, commence a new time period for the giving of a stockholder's notice as described above.

(d) Notwithstanding the foregoing provisions of this Section 6, a stockholder must also comply with all applicable requirements of the 1934 Act and the rules and regulations thereunder with respect to matters set forth in this Section 6. Nothing in these Bylaws shall be deemed to affect any rights of the stockholders to request inclusion of proposals in the corporation's proxy statement pursuant to Rule 14a-8 under the 1934 Act; *provided, however*, that any references in these Bylaws to the 1934 Act or the Rules and regulations thereunder are not intended to and shall not limit the requirements applicable to nominations for the election to the Board of Directors to be considered pursuant to Section 6(c) of these Bylaws.

Section 7. Notice of Meetings. Except as otherwise provided by law or the Certificate of Incorporation, written notice, given in writing or by electronic transmission, of each meeting of stockholders shall be given not less than ten (10) nor more than sixty (60) days before the date of the meeting to each stockholder entitled to vote at such meeting, such notice to specify the place, if any, date and hour, in the case of special meetings, the purpose or purposes of the meeting, and the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at any such meeting. If mailed, notice is given when deposited in the United States mail, postage prepaid, directed to the stockholder at such stockholder's address as it appears on the records of the corporation. Notice of the time, place, if any, and purpose of any meeting of stockholders may be waived in writing, signed by the person entitled to notice thereof, or by electronic transmission by such person, either before or after such

meeting, and will be waived by any stockholder by his attendance thereat in person, by remote communication, if applicable, or by proxy, except when the stockholder attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Any stockholder so waiving notice of such meeting shall be bound by the proceedings of any such meeting in all respects as if due notice thereof had been given.

Section 8. Quorum. At all meetings of stockholders, except where otherwise provided by statute or by the Certificate of Incorporation, or by these Bylaws, the presence, in person or by proxy duly authorized, of the holders of a majority of the outstanding shares of stock entitled to vote shall constitute a quorum for the transaction of business. In the absence of a quorum, any meeting of stockholders may be adjourned, from time to time, either by the chairman of the meeting or by vote of the holders of a majority of the shares represented thereat, but no other business shall be transacted at such meeting. The stockholders present at a duly called or convened meeting, at which a quorum is present, may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum. Except as otherwise provided by statute or by applicable stock exchange rules, or by the Certificate of Incorporation or these Bylaws, in all matters other than the election of directors, the affirmative vote of the majority of shares present in person, by remote communication, if applicable, or represented by proxy at the meeting and entitled to vote on the subject matter shall be the act of the stockholders. Except as otherwise provided by statute, the Certificate of Incorporation or these Bylaws, directors shall be elected by a plurality of the votes of the shares present in person, by remote communication, if applicable, or represented by proxy at the meeting and entitled to vote on the election of directors. Where a separate vote by a class or classes or series is required, except where otherwise provided by the statute or by the Certificate of Incorporation or these Bylaws, a majority of the outstanding shares of such class or classes or series, present in person or represented by proxy, shall constitute a quorum entitled to take action with respect to that vote on that matter and, except where otherwise provided by the statute or by the Certificate of Incorporation or these Bylaws, the affirmative vote of the majority (plurality, in the case of the election of directors) of shares of such class or classes or series present in person, by remote communication, if applicable, or represented by proxy at the meeting shall be the act of such class or classes or series.

Section 9. Adjournment and Notice of Adjourned Meetings. Any meeting of stockholders, whether annual or special, may be adjourned from time to time either by the chairman of the meeting or by the vote of a majority of the shares present in person, by remote communication, if applicable, or represented by proxy at the meeting. When a meeting is adjourned to another time or place, if any, notice need not be given of the adjourned meeting if the time and place, if any, thereof are announced at the meeting at which the adjournment is taken. At the adjourned meeting, the corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than thirty (30) days or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

Section 10. Voting Rights. For the purpose of determining those stockholders entitled to vote at any meeting of the stockholders, except as otherwise provided by law, only persons in whose names shares stand on the stock records of the corporation on the record date, as provided in Section 12 of these Bylaws, shall be entitled to vote at any meeting of stockholders. Every person entitled to vote shall have the right to do so either in person, by remote communication, if applicable, or by an agent or agents authorized by a proxy granted in accordance with Delaware law. An agent so appointed need not be a stockholder. No proxy shall be voted after three (3) years from its date of creation unless the proxy provides for a longer period.

Section 11. Joint Owners of Stock. If shares or other securities having voting power stand of record in the names of two (2) or more persons, whether fiduciaries, members of a partnership, joint tenants,

tenants in common, tenants by the entirety, or otherwise, or if two (2) or more persons have the same fiduciary relationship respecting the same shares, unless the Secretary is given written notice to the contrary and is furnished with a copy of the instrument or order appointing them or creating the relationship wherein it is so provided, their acts with respect to voting shall have the following effect: (a) if only one (1) votes, his act binds all; (b) if more than one (1) votes, the act of the majority so voting binds all; (c) if more than one (1) votes, but the vote is evenly split on any particular matter, each faction may vote the securities in question proportionally, or may apply to the Delaware Court of Chancery for relief as provided in the DGCL, Section 217(b). If the instrument filed with the Secretary shows that any such tenancy is held in unequal interests, a majority or even-split for the purpose of subsection (c) shall be a majority or even-split in interest.

Section 12. List of Stockholders. The Secretary shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list of the stockholders entitled to vote at said meeting, arranged in alphabetical order, showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting for a period of at least ten (10) days prior to the meeting (a) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (b) during ordinary business hours, at the principal place of business of the corporation. In the event that the corporation determines to make the list available on an electronic network, the corporation may take reasonable steps to ensure that such information is available only to stockholders of the corporation. The list shall be open to examination of any stockholder during the time of the meeting as required by law.

Section 13. Action without Meeting. No action shall be taken by the stockholders except at an annual or special meeting of stockholders called in accordance with these Bylaws, and no action shall be taken by the stockholders by written consent or by electronic transmission.

Section 14. Organization.

(a) At every meeting of stockholders, the Chairman of the Board of Directors, or, if a Chairman has not been appointed or is absent, the President, or, if the President is absent, a chairman of the meeting chosen by a majority in interest of the stockholders entitled to vote, present in person or by proxy, shall act as chairman. The Secretary, or, in his or her absence, an Assistant Secretary directed to do so by the President, shall act as secretary of the meeting.

(b) The Board of Directors of the corporation shall be entitled to make such rules or regulations for the conduct of meetings of stockholders as it shall deem necessary, appropriate or convenient. Subject to such rules and regulations of the Board of Directors, if any, the chairman of the meeting shall have the right and authority to prescribe such rules, regulations and procedures and to do all such acts as, in the judgment of such chairman, are necessary, appropriate or convenient for the proper conduct of the meeting, including, without limitation, establishing an agenda or order of business for the meeting, rules and procedures for maintaining order at the meeting and the safety of those present, limitations on participation in such meeting to stockholders of record of the corporation and their duly authorized and constituted proxies and such other persons as the chairman shall permit, restrictions on entry to the meeting after the time fixed for the commencement thereof, limitations on the time allotted to questions or comments by participants and regulation of the opening and closing of the polls for balloting on matters which are to be voted on by ballot. Unless and to the extent determined by the Board of Directors or the chairman of the meeting, meetings of stockholders shall not be required to be held in accordance with rules of parliamentary procedure.

ARTICLE IV

DIRECTORS

Section 15. Number and Term of Office. The authorized number of directors of the corporation shall be fixed in accordance with the Certificate of Incorporation. Directors need not be stockholders unless so required by the Certificate of Incorporation. If for any cause, the directors shall not have been elected at an annual meeting, they may be elected as soon thereafter as convenient at a special meeting of the stockholders called for that purpose in the manner provided in these Bylaws.

Section 16. Powers. The powers of the corporation shall be exercised, its business conducted and its property controlled by the Board of Directors, except as may be otherwise provided by statute or by the Certificate of Incorporation.

Section 17. Classes of Directors.

Subject to the rights of the holders of any series of Preferred Stock to elect additional directors under specified circumstances, following the closing of the initial public offering pursuant to an effective registration statement under the Securities Act of 1933, as amended (the "1933 Act"), covering the offer and sale of Common Stock of the corporation (the "Initial Public Offering"), the directors shall be divided into three classes designated as Class I, Class II and Class III, respectively. Directors shall be assigned to each class in accordance with a resolution or resolutions adopted by the Board of Directors. At the first annual meeting of stockholders following the closing of the Initial Public Offering, the term of office of the Class I directors shall expire and Class I directors shall be elected for a full term of three years. At the second annual meeting of stockholders following the Initial Public Offering, the term of office of the Class II directors shall expire and Class II directors shall be elected for a full term of three years. At the third annual meeting of stockholders following the Initial Public Offering, the term of office of the Class III directors shall expire and Class III directors shall be elected for a full term of three years. At each succeeding annual meeting of stockholders, directors shall be elected for a full term of three years to succeed the directors of the class whose terms expire at such annual meeting.

Notwithstanding the foregoing provisions of this section, each director shall serve until his successor is duly elected and qualified or until his death, resignation or removal. No decrease in the number of directors constituting the Board of Directors shall shorten the term of any incumbent director.

Section 18. Vacancies.

(a) Unless otherwise provided in the Certificate of Incorporation, and subject to the rights of the holders of any series of Preferred Stock, any vacancies on the Board of Directors resulting from death, resignation, disqualification, removal or other causes and any newly created directorships resulting from any increase in the number of directors shall, unless the Board of Directors determines by resolution that any such vacancies or newly created directorships shall be filled by stockholders, be filled only by the affirmative vote of a majority of the directors then in office, even though less than a quorum of the Board of Directors, and not by the stockholders. Any director elected in accordance with the preceding sentence shall hold office for the remainder of the full term of the director for which the vacancy was created or occurred and until such director's successor shall have been elected and qualified. A vacancy in the Board of Directors shall be deemed to exist under this Section 18 in the case of the death, removal or resignation of any director.

(b) If at the time of filling any vacancy or any newly created directorship, the directors then in office shall constitute less than a majority of the whole board (as constituted immediately prior to any such increase), the Delaware Court of Chancery may, upon application of any stockholder or stockholders holding at least ten percent (10%) of the total number of the shares at the time outstanding having the right to vote for such directors, summarily order an election to be held to fill any such vacancies or newly created directorships, or to replace the directors chosen by the directors then in offices as aforesaid, which election shall be governed by Section 211 of the DGCL.

Section 19. Resignation. Any director may resign at any time by delivering his or her notice in writing or by electronic transmission to the Secretary, such resignation to specify whether it will be effective at a particular time, upon receipt by the Secretary or at the pleasure of the Board of Directors. If no such specification is made, it shall be deemed effective at the time of delivery to the Secretary. When one or more directors shall resign from the Board of Directors, effective at a future date, a majority of the directors then in office, including those who have so resigned, shall have power to fill such vacancy or vacancies, the vote thereon to take effect when such resignation or resignations shall become effective, and each Director so chosen shall hold office for the unexpired portion of the term of the Director whose place shall be vacated and until his successor shall have been duly elected and qualified.

Section 20. Removal.

(a) Subject to the rights of any series of Preferred Stock to elect additional directors under specified, neither the Board of Directors nor any individual director may be removed without cause.

(b) Subject to any limitation imposed by law, any individual director or directors may be removed with cause by the affirmative vote of the holders of a majority of the voting power of all then outstanding shares of capital stock of the corporation entitled to vote generally at an election of directors.

Section 21. Meetings.

(a) **Regular Meetings.** Unless otherwise restricted by the Certificate of Incorporation, regular meetings of the Board of Directors may be held at any time or date and at any place within or without the State of Delaware which has been designated by the Board of Directors and publicized among all directors, either orally or in writing, by telephone, including a voice-messaging system or other system designed to record and communicate messages, facsimile, telegraph or telex, or by electronic mail or other electronic means. No formal notice shall be required for regular meetings of the Board of Directors.

(b) **Special Meetings.** Unless otherwise restricted by the Certificate of Incorporation, special meetings of the Board of Directors may be held at any time and place within or without the State of Delaware whenever called by the Chairman of the Board, the President or any two of the directors

(c) **Meetings by Electronic Communications Equipment.** Any member of the Board of Directors, or of any committee thereof, may participate in a meeting by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting by such means shall constitute presence in person at such meeting.

(d) **Notice of Meetings.** Notice of the time and place of all meetings of the Board of Directors shall be orally or in writing, by telephone, including a voice messaging system or other system or technology designed to record and communicate messages, facsimile, telegraph or telex, or by electronic mail or other electronic means, during normal business hours, at least twenty-four (24) hours before the date

and time of the meeting, or sent in writing to each director by first class mail, charges prepaid, at least three (3) days before the date of the meeting. Notice of any meeting may be waived in writing, or by electronic transmission, at any time before or after the meeting and will be waived by any director by attendance thereat, except when the director attends the meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened.

(e) Waiver of Notice. The transaction of all business at any meeting of the Board of Directors, or any committee thereof, however called or noticed, or wherever held, shall be as valid as though had at a meeting duly held after regular call and notice, if a quorum be present and if, either before or after the meeting, each of the directors not present shall sign a written waiver of notice or shall waive the notice by electronic transmission. All such waivers shall be filed with the corporate records or made a part of the minutes of the meeting.

Section 22. Quorum and Voting.

(a) Unless the Certificate of Incorporation requires a greater number and except with respect to indemnification questions arising under Section 43 hereof, for which a quorum shall be one-third of the exact number of directors fixed from time to time in accordance with the Certificate of Incorporation, a quorum of the Board of Directors shall consist of a majority of the exact number of directors fixed from time to time by the Board of Directors in accordance with the Certificate of Incorporation; *provided, however,* at any meeting whether a quorum be present or otherwise, a majority of the directors present may adjourn from time to time until the time fixed for the next regular meeting of the Board of Directors, without notice other than by announcement at the meeting.

(b) At each meeting of the Board of Directors at which a quorum is present, all questions and business shall be determined by the affirmative vote of a majority of the directors present, unless a different vote be required by law, the Certificate of Incorporation or these Bylaws.

Section 23. Action without Meeting. Unless otherwise restricted by the Certificate of Incorporation or these Bylaws, any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting, if all members of the Board of Directors or committee, as the case may be, consent thereto in writing or by electronic transmission, and such writing or writings or transmission or transmissions are filed with the minutes of proceedings of the Board of Directors or committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

Section 24. Fees and Compensation. Directors shall be entitled to such compensation for their services as may be approved by the Board of Directors, including, if so approved, by resolution of the Board of Directors, a fixed sum and expenses of attendance, if any, for attendance at each regular or special meeting of the Board of Directors and at any meeting of a committee of the Board of Directors. Nothing herein contained shall be construed to preclude any director from serving the corporation in any other capacity as an officer, agent, employee, or otherwise and receiving compensation therefor.

Section 25. Committees.

(a) Executive Committee. The Board of Directors may appoint an Executive Committee to consist of one (1) or more members of the Board of Directors. The Executive Committee, to the extent permitted by law and provided in the resolution of the Board of Directors shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the

corporation, and may authorize the seal of the corporation to be affixed to all papers which may require it; but no such committee shall have the power or authority in reference to (i) approving or adopting, or recommending to the stockholders, any action or matter (other than the election or removal of directors) expressly required by the DGCL to be submitted to stockholders for approval, or (ii) adopting, amending or repealing any bylaw of the corporation.

(b) Other Committees. The Board of Directors may, from time to time, appoint such other committees as may be permitted by law. Such other committees appointed by the Board of Directors shall consist of one (1) or more members of the Board of Directors and shall have such powers and perform such duties as may be prescribed by the resolution or resolutions creating such committees, but in no event shall any such committee have the powers denied to the Executive Committee in these Bylaws.

(c) Term. Each member of a committee of the Board of Directors shall serve a term on the committee coexistent with such member's term on the Board of Directors. The Board of Directors, subject to any requirements of any outstanding series of Preferred Stock and the provisions of subsections (a) or (b) of this Section 25, may at any time increase or decrease the number of members of a committee or terminate the existence of a committee. The membership of a committee member shall terminate on the date of his death or voluntary resignation from the committee or from the Board of Directors. The Board of Directors may at any time for any reason remove any individual committee member and the Board of Directors may fill any committee vacancy created by death, resignation, removal or increase in the number of members of the committee. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee, and, in addition, in the absence or disqualification of any member of a committee, the member or members thereof present at any meeting and not disqualified from voting, whether or not he or they constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in the place of any such absent or disqualified member.

(d) Meetings. Unless the Board of Directors shall otherwise provide, regular meetings of the Executive Committee or any other committee appointed pursuant to this Section 25 shall be held at such times and places as are determined by the Board of Directors, or by any such committee, and when notice thereof has been given to each member of such committee, no further notice of such regular meetings need be given thereafter. Special meetings of any such committee may be held at any place which has been determined from time to time by such committee, and may be called by any director who is a member of such committee, upon notice to the members of such committee of the time and place of such special meeting given in the manner provided for the giving of notice to members of the Board of Directors of the time and place of special meetings of the Board of Directors. Notice of any special meeting of any committee may be waived in writing or by electronic transmission at any time before or after the meeting and will be waived by any director by attendance thereat, except when the director attends such special meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened. Unless otherwise provided by the Board of Directors in the resolutions authorizing the committee, a majority of the authorized number of members of any such committee shall constitute a quorum for the transaction of business, and the act of a majority of those present at any meeting at which a quorum is present shall be the act of such committee.

Section 26. Organization. At every meeting of the directors, the Chairman of the Board of Directors, or, if a Chairman has not been appointed or is absent, the President (if a director), or if the President is absent, the most senior Vice President (if a director), or, in the absence of any such person, a chairman of the meeting chosen by a majority of the directors present, shall preside over the meeting. The Secretary, or in his absence, any Assistant Secretary directed to do so by the President, shall act as secretary of the meeting.

ARTICLE V

OFFICERS

Section 27. Officers Designated. The officers of the corporation shall include, if and when designated by the Board of Directors, the Chairman of the Board of Directors, the Chief Executive Officer, the President, one or more Vice Presidents, the Secretary, the Chief Financial Officer, the Treasurer and the Controller. The Board of Directors may also appoint one or more Assistant Secretaries, Assistant Treasurers, Assistant Controllers and such other officers and agents with such powers and duties as it shall deem necessary. The Board of Directors may assign such additional titles to one or more of the officers as it shall deem appropriate. Any one person may hold any number of offices of the corporation at any one time unless specifically prohibited therefrom by law. The salaries and other compensation of the officers of the corporation shall be fixed by or in the manner designated by the Board of Directors.

Section 28. Tenure and Duties of Officers.

(a) General. All officers shall hold office at the pleasure of the Board of Directors and until their successors shall have been duly elected and qualified, unless sooner removed. Any officer elected or appointed by the Board of Directors may be removed at any time by the Board of Directors. If the office of any officer becomes vacant for any reason, the vacancy may be filled by the Board of Directors.

(b) Duties of Chairman of the Board of Directors. The Chairman of the Board of Directors, when present, shall preside at all meetings of the stockholders and the Board of Directors. The Chairman of the Board of Directors shall perform other duties commonly incident to his office and shall also perform such other duties and have such other powers, as the Board of Directors shall designate from time to time. If there is no President, then the Chairman of the Board of Directors shall also serve as the Chief Executive Officer of the corporation and shall have the powers and duties prescribed in paragraph (c) of this Section 28.

(c) Duties of President. The President shall preside at all meetings of the stockholders and at all meetings of the Board of Directors, unless the Chairman of the Board of Directors has been appointed and is present. Unless some other officer has been elected Chief Executive Officer of the corporation, the President shall be the chief executive officer of the corporation and shall, subject to the control of the Board of Directors, have general supervision, direction and control of the business and officers of the corporation. The President shall perform other duties commonly incident to his office and shall also perform such other duties and have such other powers, as the Board of Directors shall designate from time to time.

(d) Duties of Vice Presidents. The Vice Presidents may assume and perform the duties of the President in the absence or disability of the President or whenever the office of President is vacant. The Vice Presidents shall perform other duties commonly incident to their office and shall also perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time.

(e) Duties of Secretary. The Secretary shall attend all meetings of the stockholders and of the Board of Directors and shall record all acts and proceedings thereof in the minute book of the corporation. The Secretary shall give notice in conformity with these Bylaws of all meetings of the stockholders and of all meetings of the Board of Directors and any committee thereof requiring notice. The

Secretary shall perform all other duties given him in these Bylaws and other duties commonly incident to his office and shall also perform such other duties and have such other powers, as the Board of Directors shall designate from time to time. The President may direct any Assistant Secretary to assume and perform the duties of the Secretary in the absence or disability of the Secretary, and each Assistant Secretary shall perform other duties commonly incident to his office and shall also perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time.

(f) Duties of Chief Financial Officer. The Chief Financial Officer shall keep or cause to be kept the books of account of the corporation in a thorough and proper manner and shall render statements of the financial affairs of the corporation in such form and as often as required by the Board of Directors or the President. The Chief Financial Officer, subject to the order of the Board of Directors, shall have the custody of all funds and securities of the corporation. The Chief Financial Officer shall perform other duties commonly incident to his office and shall also perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time. The President may direct the Treasurer or any Assistant Treasurer, or the Controller or any Assistant Controller to assume and perform the duties of the Chief Financial Officer in the absence or disability of the Chief Financial Officer, and each Treasurer and Assistant Treasurer and each Controller and Assistant Controller shall perform other duties commonly incident to his office and shall also perform such other duties and have such other powers as the Board of Directors or the President shall designate from time to time.

Section 29. Delegation of Authority. The Board of Directors may from time to time delegate the powers or duties of any officer to any other officer or agent, notwithstanding any provision hereof.

Section 30. Resignations. Any officer may resign at any time by giving notice in writing or by electronic transmission to the Board of Directors or to the President or to the Secretary. Any such resignation shall be effective when received by the person or persons to whom such notice is given, unless a later time is specified therein, in which event the resignation shall become effective at such later time. Unless otherwise specified in such notice, the acceptance of any such resignation shall not be necessary to make it effective. Any resignation shall be without prejudice to the rights, if any, of the corporation under any contract with the resigning officer.

Section 31. Removal. Any officer may be removed from office at any time, either with or without cause, by the affirmative vote of a majority of the directors in office at the time, or by the unanimous written consent of the directors in office at the time, or by any committee or superior officers upon whom such power of removal may have been conferred by the Board of Directors.

ARTICLE VI

EXECUTION OF CORPORATE INSTRUMENTS AND VOTING OF SECURITIES OWNED BY THE CORPORATION

Section 32. Execution of Corporate Instruments . The Board of Directors may, in its discretion, determine the method and designate the signatory officer or officers, or other person or persons, to execute on behalf of the corporation any corporate instrument or document, or to sign on behalf of the corporation the corporate name without limitation, or to enter into contracts on behalf of the corporation, except where otherwise provided by law or these Bylaws, and such execution or signature shall be binding upon the corporation.

All checks and drafts drawn on banks or other depositories on funds to the credit of the corporation or in special accounts of the corporation shall be signed by such person or persons as the Board of Directors shall authorize so to do.

Unless authorized or ratified by the Board of Directors or within the agency power of an officer, no officer, agent or employee shall have any power or authority to bind the corporation by any contract or engagement or to pledge its credit or to render it liable for any purpose or for any amount.

Section 33. Voting of Securities Owned by the Corporation. All stock and other securities of other corporations owned or held by the corporation for itself, or for other parties in any capacity, shall be voted, and all proxies with respect thereto shall be executed, by the person authorized so to do by resolution of the Board of Directors, or, in the absence of such authorization, by the Chairman of the Board of Directors, the Chief Executive Officer, the President, or any Vice President.

ARTICLE VII

SHARES OF STOCK

Section 34. Form and Execution of Certificates. The shares of the corporation shall be represented by certificates, or shall be uncertificated. Certificates for the shares of stock, if any, shall be in such form as is consistent with the Certificate of Incorporation and applicable law. Every holder of stock represented by certificate in the corporation shall be entitled to have a certificate signed by or in the name of the corporation by the Chairman of the Board of Directors, or the President or any Vice President and by the Treasurer or Assistant Treasurer or the Secretary or Assistant Secretary, certifying the number of shares owned by such holder in the corporation. Any or all of the signatures on the certificate may be facsimiles. In case any officer, transfer agent, or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent, or registrar before such certificate is issued, it may be issued with the same effect as if he were such officer, transfer agent, or registrar at the date of issue.

Section 35. Lost Certificates. A new certificate or certificates shall be issued in place of any certificate or certificates theretofore issued by the corporation alleged to have been lost, stolen, or destroyed, upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost, stolen, or destroyed. The corporation may require, as a condition precedent to the issuance of a new certificate or certificates, the owner of such lost, stolen, or destroyed certificate or certificates, or the owner's legal representative, to agree to indemnify the corporation in such manner as it shall require or to give the corporation a surety bond in such form and amount as it may direct as indemnity against any claim that may be made against the corporation with respect to the certificate alleged to have been lost, stolen, or destroyed.

Section 36. Transfers.

(a) Transfers of record of shares of stock of the corporation shall be made only upon its books by the holders thereof, in person or by attorney duly authorized, and, in the case of stock represented by certificate, upon the surrender of a properly endorsed certificate or certificates for a like number of shares.

(b) The corporation shall have power to enter into and perform any agreement with any number of stockholders of any one or more classes of stock of the corporation to restrict the transfer of shares

of stock of the corporation of any one or more classes owned by such stockholders in any manner not prohibited by the DGCL.

Section 37. Fixing Record Dates.

(a) In order that the corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, the Board of Directors may fix, in advance, a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall, subject to applicable law, not be more than sixty (60) nor less than ten (10) days before the date of such meeting. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; *provided, however*, that the Board of Directors may fix a new record date for the adjourned meeting.

(b) In order that the corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights or the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action, the Board of Directors may fix, in advance, a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than sixty (60) days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

Section 38. Registered Stockholders. The corporation shall be entitled to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner, and shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of Delaware.

ARTICLE VIII

OTHER SECURITIES OF THE CORPORATION

Section 39. Execution of Other Securities. All bonds, debentures and other corporate securities of the corporation, other than stock certificates (covered in Section 34), may be signed by the Chairman of the Board of Directors, the President or any Vice President, or such other person as may be authorized by the Board of Directors, and the corporate seal impressed thereon or a facsimile of such seal imprinted thereon and attested by the signature of the Secretary or an Assistant Secretary, or the Chief Financial Officer or Treasurer or an Assistant Treasurer; *provided, however*, that where any such bond, debenture or other corporate security shall be authenticated by the manual signature, or where permissible facsimile signature, of a trustee under an indenture pursuant to which such bond, debenture or other corporate security shall be issued, the signatures of the persons signing and attesting the corporate seal on such bond, debenture or other corporate security may be the imprinted facsimile of the signatures of such persons. Interest coupons appertaining to any such bond, debenture or other corporate security, authenticated by a trustee as aforesaid, shall be signed by the Treasurer or an Assistant Treasurer of the corporation or such other person as may be authorized by

the Board of Directors, or bear imprinted thereon the facsimile signature of such person. In case any officer who shall have signed or attested any bond, debenture or other corporate security, or whose facsimile signature shall appear thereon or on any such interest coupon, shall have ceased to be such officer before the bond, debenture or other corporate security so signed or attested shall have been delivered, such bond, debenture or other corporate security nevertheless may be adopted by the corporation and issued and delivered as though the person who signed the same or whose facsimile signature shall have been used thereon had not ceased to be such officer of the corporation.

ARTICLE IX

DIVIDENDS

Section 40. Declaration of Dividends. Dividends upon the capital stock of the corporation, subject to the provisions of the Certificate of Incorporation and applicable law, if any, may be declared by the Board of Directors pursuant to law at any regular or special meeting. Dividends may be paid in cash, in property, or in shares of the capital stock, subject to the provisions of the Certificate of Incorporation and applicable law.

Section 41. Dividend Reserve. Before payment of any dividend, there may be set aside out of any funds of the corporation available for dividends such sum or sums as the Board of Directors from time to time, in their absolute discretion, think proper as a reserve or reserves to meet contingencies, or for equalizing dividends, or for repairing or maintaining any property of the corporation, or for such other purpose as the Board of Directors shall think conducive to the interests of the corporation, and the Board of Directors may modify or abolish any such reserve in the manner in which it was created.

ARTICLE X

FISCAL YEAR

Section 42. Fiscal Year. The fiscal year of the corporation shall be fixed by resolution of the Board of Directors.

ARTICLE XI

INDEMNIFICATION

Section 43. Indemnification of Directors, Executive Officers, Other Officers, Employees and Other Agents.

(a) **Directors and Executive Officers.** The corporation shall indemnify its directors and executive officers (for the purposes of this Article XI, "executive officers" shall have the meaning defined in Rule 3b-7 promulgated under the 1934 Act) to the fullest extent not prohibited by the DGCL or any other applicable law; *provided, however*, that the corporation may modify the extent of such indemnification by individual contracts with its directors and executive officers; and, *provided, further*, that the corporation shall not be required to indemnify any director or executive officer in connection with any proceeding (or part thereof) initiated by such person unless (i) such indemnification is expressly required to be made by law,

(ii) the proceeding was authorized by the Board of Directors of the corporation, (iii) such indemnification is provided by the corporation, in its sole discretion, pursuant to the powers vested in the corporation under the DGCL or any other applicable law or (iv) such indemnification is required to be made under subsection (d).

(b) Other Officers, Employees and Other Agents. The corporation shall have power to indemnify its other officers, employees and other agents as set forth in the DGCL or any other applicable law. The Board of Directors shall have the power to delegate the determination of whether indemnification shall be given to any such person except executive officers to such officers or other persons as the Board of Directors shall determine.

(c) Expenses. The corporation shall advance to any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was a director or executive officer, of the corporation, or is or was serving at the request of the corporation as a director or executive officer of another corporation, partnership, joint venture, trust or other enterprise, prior to the final disposition of the proceeding, promptly following request therefor, all expenses incurred by any director or executive officer in connection with such proceeding upon receipt of an undertaking by or on behalf of such person to repay said amounts if it should be determined ultimately that such person is not entitled to be indemnified under this Section 43 or otherwise.

Notwithstanding the foregoing, unless otherwise determined pursuant to paragraph (e) of this Section 43, no advance shall be made by the corporation to an executive officer of the corporation (except by reason of the fact that such executive officer is or was a director of the corporation in which event this paragraph shall not apply) in any action, suit or proceeding, whether civil, criminal, administrative or investigative, if a determination is reasonably and promptly made (i) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to the proceeding, or (ii) if such quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, that the facts known to the decision-making party at the time such determination is made demonstrate clearly and convincingly that such person acted in bad faith or in a manner that such person did not believe to be in or not opposed to the best interests of the corporation.

(d) Enforcement. Without the necessity of entering into an express contract, all rights to indemnification and advances to directors and executive officers under this Bylaw shall be deemed to be contractual rights and be effective to the same extent and as if provided for in a contract between the corporation and the director or executive officer. Any right to indemnification or advances granted by this Section 43 to a director or executive officer shall be enforceable by or on behalf of the person holding such right in any court of competent jurisdiction if (i) the claim for indemnification or advances is denied, in whole or in part, or (ii) no disposition of such claim is made within ninety (90) days of request therefor. To the extent permitted by law, the claimant in such enforcement action, if successful in whole or in part, shall be entitled to be paid also the expense of prosecuting the claim. In connection with any claim for indemnification, the corporation shall be entitled to raise as a defense to any such action that the claimant has not met the standards of conduct that make it permissible under the DGCL or any other applicable law for the corporation to indemnify the claimant for the amount claimed. In connection with any claim by an executive officer of the corporation (except in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such executive officer is or was a director of the corporation) for advances, the corporation shall be entitled to raise a defense as to any such action clear and convincing evidence that such person acted in bad faith or in a manner that such person did not believe to be in or not opposed to the best interests of the corporation, or with respect to any criminal action or proceeding

that such person acted without reasonable cause to believe that his conduct was lawful. Neither the failure of the corporation (including its Board of Directors, independent legal counsel or its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he has met the applicable standard of conduct set forth in the DGCL or any other applicable law, nor an actual determination by the corporation (including its Board of Directors, independent legal counsel or its stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that claimant has not met the applicable standard of conduct. In any suit brought by a director or executive officer to enforce a right to indemnification or to an advancement of expenses hereunder, the burden of proving that the director or executive officer is not entitled to be indemnified, or to such advancement of expenses, under this Section 43 or otherwise shall be on the corporation.

(e) Non-Exclusivity of Rights. The rights conferred on any person by this Bylaw shall not be exclusive of any other right which such person may have or hereafter acquire under any applicable statute, provision of the Certificate of Incorporation, Bylaws, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding office. The corporation is specifically authorized to enter into individual contracts with any or all of its directors, officers, employees or agents respecting indemnification and advances, to the fullest extent not prohibited by the DGCL, or by any other applicable law.

(f) Survival of Rights. The rights conferred on any person by this Bylaw shall continue as to a person who has ceased to be a director, officer, employee or other agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

(g) Insurance. To the fullest extent permitted by the DGCL or any other applicable law, the corporation, upon approval by the Board of Directors, may purchase insurance on behalf of any person required or permitted to be indemnified pursuant to this Section 43.

(h) Amendments. Any repeal or modification of this Section 43 shall only be prospective and shall not affect the rights under this Bylaw in effect at the time of the alleged occurrence of any action or omission to act that is the cause of any proceeding against any agent of the corporation.

(i) Saving Clause. If this Bylaw or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the corporation shall nevertheless indemnify each director and executive officer to the full extent not prohibited by any applicable portion of this Section 43 that shall not have been invalidated, or by any other applicable law. If this Section 43 shall be invalid due to the application of the indemnification provisions of another jurisdiction, then the corporation shall indemnify each director and executive officer to the full extent under any other applicable law.

(j) Certain Definitions. For the purposes of this Bylaw, the following definitions shall apply:

(1) The term “proceeding” shall be broadly construed and shall include, without limitation, the investigation, preparation, prosecution, defense, settlement, arbitration and appeal of, and the giving of testimony in, any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

(2) The term “expenses” shall be broadly construed and shall include, without limitation, court costs, attorneys’ fees, witness fees, fines, amounts paid in settlement or judgment and any other costs and expenses of any nature or kind incurred in connection with any proceeding.

(3) The term the “corporation” shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under the provisions of this Section 43 with respect to the resulting or surviving corporation as he would have with respect to such constituent corporation if its separate existence had continued.

(4) References to a “director,” “executive officer,” “officer,” “employee,” or “agent” of the corporation shall include, without limitation, situations where such person is serving at the request of the corporation as, respectively, a director, executive officer, officer, employee, trustee or agent of another corporation, partnership, joint venture, trust or other enterprise.

(5) References to “other enterprises” shall include employee benefit plans; references to “fines” shall include any excise taxes assessed on a person with respect to an employee benefit plan; and references to “serving at the request of the corporation” shall include any service as a director, officer, employee or agent of the corporation which imposes duties on, or involves services by, such director, officer, employee, or agent with respect to an employee benefit plan, its participants, or beneficiaries; and a person who acted in good faith and in a manner he reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the corporation” as referred to in this Section 43.

ARTICLE XII

NOTICES

Section 44. Notices.

(a) **Notice to Stockholders.** Written notice to stockholders of meetings shall be given as provided in Section 7 herein. Without limiting the manner by which notice may otherwise be given effectively to stockholders under any agreement or contract with such stockholder, written notice to stockholders for purposes other than stockholder meetings may be sent by United States mail or nationally recognized overnight courier, or by facsimile, telegraph or telex or by electronic mail or other electronic means.

(b) **Notice to Directors.** Any notice required to be given to any director may be given by the method stated in subsection (a), as otherwise provided in these Bylaws, or by overnight delivery service, facsimile, telex or telegram, except that such notice other than one which is delivered personally shall be sent to such address as such director shall have filed in writing with the Secretary, or, in the absence of such filing, to the last known post office address of such director.

(c) **Affidavit of Mailing.** An affidavit of mailing, executed by a duly authorized and competent employee of the corporation or its transfer agent appointed with respect to the class of stock

affected, specifying the name and address or the names and addresses of the stockholder or stockholders, or director or directors, to whom any such notice or notices was or were given, and the time and method of giving the same, shall in the absence of fraud, be prima facie evidence of the facts therein contained.

(d) Time Notices Deemed Given. All notices given by mail or by overnight delivery service, as above provided, shall be deemed to have been given as at the time of mailing, and all notices given by facsimile, telex or telegram shall be deemed to have been given as of the sending time recorded at time of transmission.

(e) Methods of Notice. It shall not be necessary that the same method of giving notice be employed in respect of all recipients of notice, but one permissible method may be employed in respect of any one or more, and any other permissible method or methods may be employed in respect of any other or others.

(f) Failure to Receive Notice. The period or limitation of time within which any stockholder may exercise any option or right, or enjoy any privilege or benefit, or be required to act, or within which any director may exercise any power or right, or enjoy any privilege, pursuant to any notice sent him in the manner above provided, shall not be affected or extended in any manner by the failure of such stockholder or such director to receive such notice.

(g) Notice to Person with Whom Communication Is Unlawful. Whenever notice is required to be given, under any provision of law or of the Certificate of Incorporation or Bylaws of the corporation, to any person with whom communication is unlawful, the giving of such notice to such person shall not be required and there shall be no duty to apply to any governmental authority or agency for a license or permit to give such notice to such person. Any action or meeting which shall be taken or held without notice to any such person with whom communication is unlawful shall have the same force and effect as if such notice had been duly given. In the event that the action taken by the corporation is such as to require the filing of a certificate under any provision of the DGCL, the certificate shall state, if such is the fact and if notice is required, that notice was given to all persons entitled to receive notice except such persons with whom communication is unlawful.

(h) Notice to Person with Undeliverable Address. Whenever notice is required to be given, under any provision of law or the Certificate of Incorporation or Bylaws of the corporation, to any stockholder to whom (i) notice of two consecutive annual meetings, and all notices of meetings or of the taking of action by written consent without a meeting to such person during the period between such two consecutive annual meetings, or (ii) all, and at least two, payments (if sent by first class mail) of dividends or interest on securities during a twelve-month period, have been mailed addressed to such person at his address as shown on the records of the corporation and have been returned undeliverable, the giving of such notice to such person shall not be required. Any action or meeting which shall be taken or held without notice to such person shall have the same force and effect as if such notice had been duly given. If any such person shall deliver to the corporation a written notice setting forth his then current address, the requirement that notice be given to such person shall be reinstated. In the event that the action taken by the corporation is such as to require the filing of a certificate under any provision of the DGCL, the certificate need not state that notice was not given to persons to whom notice was not required to be given pursuant to this paragraph.

ARTICLE XIII

AMENDMENTS

Section 45. Amendments. Subject to paragraph (h) of Section 43 of the Bylaws, the Bylaws may be altered or amended or new Bylaws adopted by the affirmative vote of at least sixty-six and two-thirds percent (66-2/3%) of the voting power of all of the then-outstanding shares of the voting stock of the corporation entitled to vote. The Board of Directors shall also have the power to adopt, amend, or repeal Bylaws.

ARTICLE XIV

LOANS TO OFFICERS

Section 46. Loans to Officers. Except as otherwise prohibited by applicable law, the corporation may lend money to, or guarantee any obligation of, or otherwise assist any officer or other employee of the corporation or of its subsidiaries, including any officer or employee who is a director of the corporation or its subsidiaries, whenever, in the judgment of the Board of Directors, such loan, guarantee or assistance may reasonably be expected to benefit the corporation. The loan, guarantee or other assistance may be with or without interest and may be unsecured, or secured in such manner as the Board of Directors shall approve, including, without limitation, a pledge of shares of stock of the corporation. Nothing in these Bylaws shall be deemed to deny, limit or restrict the powers of guaranty or warranty of the corporation at common law or under any statute.

CERTIFICATION

I, Randall A. Lipps, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Omnicell, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

I, Peter J. Kuipers, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Omnicell, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

Pursuant to the requirement set forth in Rule 13a-14(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. §1350), Randall A. Lipps, the President and Chief Executive Officer of Omnicell, Inc. (the "Company") and Peter J. Kuipers, the Executive Vice President & Chief Financial Officer of the Company, each hereby certifies that, to the best of his knowledge:

1. The Company's Quarterly Report on Form 10-Q for the period ended March 31, 2018 ("the Quarterly Report"), to which this Certification is attached as Exhibit 32.1 fully complies with the requirements of Section 13(a) or Section 15(d) of the Exchange Act; and

2. The information contained in the Quarterly Report on Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of the Company.

In Witness Whereof, the undersigned have set their hands hereto as of the 4th day of May, 2018.
